Education

Guru Gobind Singh College of Engineering and Research Centre

Bachelor of Electrical Engineering

Nashik, Maharashtra

S. M. E. S. Polytechnic College

Diploma Electrical Engineering

Nashik, Maharashtra

Experience

Testing Engineer

Full-time

TRANS POWER SOLUTIONS Lake-Site CO-Op.Soc. Adi Shankaracharya Marg, Opp. IIT Main Gate, Powai 400076

- Check ACB and VCB of Circuit Breaker.
- Conducted tests on Circuit Breaker as per drawing, including breaker timing, contact resistance (using CRM), insulation resistance (IR), rack out/in operation, and closing/tripping operation.
- Conducted tests on MCC & PCC panel, including insulation resistance (IR) test, contact resistance (CRM) test, and connection verification as per drawing.
- Conducted tests on transformer, including insulation resistance (IR) test, transformer ratio test, transformer vector group test, magnetic balance test, magnetic current test, tapping verification (remotely and manually), and alarm/tripping protection command verification as per circuit diagram.
- Conducted tests on HV cables, including Hi-Pot test and insulation resistance (IR) test.
- Checked LV cables using megger (IR Test).
- Checked relay connections as per circuit diagram.
- Created defect lists during testing and proposed solutions to minimize problems.

Projects

Certificates

Skills

Computer Skills: MS Office (Word, Basic Excel, Power Point), Windows, Internet

Testing Skills: ACB, VCB, Circuit Breaker Testing, MCC PCC Panel Testing, Transformer Testing, HV Cable Testing, LV Cable Testing

Software Skills: EXCEL, MS OFFICE, WORD

Extracurricular Activities
