Projects

Applocker for Android

Android Application provides the protection of the System applications as well as the Third party applications installed in the Android devices. The password protection is provided with the help of patterns of volume keys. Hence, an extra measure of privacy is acquired.

Online Complaint System For Cyber Crimes

Android Application Online Complaint System for Cyber Crimes is an android application which will be in use after a person lodged a complaint in Police station regarding cyber crime but no action has been taken against it within the prescribed time constraint. Such person will directly use this application which will help him/her to directly lodge the complaint to Commissioner Office and it will get store in the Commissioner's database and necessary action will be taken against it.
