

Ali Mahmoud

Data Scientist | Machine Learning Engineer

ali.mahmoud@email.com | +20 101 234 5678 |  github.com/ali-mahmoud |  linkedin.com/in/ali-mahmoud | alimahmoud.com

Summary

Versatile, high-energy IT professional with 2 years of experience in Machine Learning, Deep Learning, Data Science, and Python-based software development. Skilled in managing end-to-end product development life cycles, from inception to deployment. Possesses strong knowledge of various ML/DL algorithms, NLP, GCP, and a wide array of Python libraries.

Education

Rayat and Bahra Institute of Engineering and Biotechnology

B.Tech in Computer Science

Percentage: 78.4%

2016, Mohali, India

Experience

Machine Learning Engineer

Full-time

Wipro Technologies

2016 – 2018, Cairo, Egypt

- Developed and deployed Python programs leveraging Machine Learning, Deep Learning, and Data Science techniques.
- Contributed to the Wipro Neural Intelligence Platform, an AI-driven solution for automating user query responses using Natural Language Processing (NLP) and deep machine learning.
- Implemented Entity Extractor for text information retrieval utilizing Regex, Bluemix NLU APIs, and TensorFlow for learning new entities.
- Designed and optimized Classifier models (MNB, SVM, SGD) with Scikit-learn to map user queries to best-suited responses, enhancing system efficiency.
- Trained and deployed Deep Learning NER models (RNN-LSTM Bidirectional with Keras TensorFlow) for extracting entities like roles, skills, and organizations from raw text.

Projects

Diabetes Detection

2016

- Developed a software solution capable of detecting whether a person is suffering from Diabetes, earning third prize in a competition.

Certificates

Python Training

Machine Learning (Udemy, Coursera)

Data Science (Udemy, Coursera)

Deep Learning (Udemy, Coursera)

Awards & Honors

Third Prize - Diabetes Detection Project, Rayat and Bahra Institute, 2016

Skills

Programming Languages: Python, C++, Java, C

Machine Learning/Deep Learning: Machine Learning, Deep Learning, Neural Networks, NLP, Keras, TensorFlow, Scikit-learn, KNN, Decision Tree, SVM, Logistic Regression, Linear Regression, K-means Clustering, SGD

Data Science Libraries: NumPy, Pandas, Seaborn, Matplotlib, Cufflinks

Cloud Platforms: Google Cloud Platform (GCP)

Databases: SQL, MySQL, Oracle

Operating Systems: Linux, Ubuntu, Windows

Development Tools: NetBeans, Jupyter Notebooks, Sublime Text, Service Now, Remedy

Languages

English: Fluent

Hindi: Native
