Education

Great Lakes Institute of Management & Illinois Institute of Technology

PGDM Business Analytics

Jan 2017 – Jan 2018, Chennai, India / Chicago, U.S.

New Horizon College of Engineering, Bangalore Visvesvaraya Technological University

Bachelor of Engineering Electronics and Communication

Graduated Jan 2013, Bengaluru

Experience

Consultant

Full-time

Deloitte USI

June 2021 – Present, Hyderabad, India

- Analyzed historical deals to optimize future deal structures, generating meaningful insights for clients.
- Developed sentence correction functionality for a handwriting recognition project, training LSTM models on large English word datasets.
- Led offshore teams in designing and developing an analytics infrastructure on SAP S/4, including financial reporting and expense forecasting capabilities.
- Involved in the full design-to-deploy phase for a Clinical Healthcare System, restructuring data and building advanced analytical models for faster queries.
- Set up CRM and Consumption Based Planning (CBP) modules for Flowers Foods, developing models and optimizing performance for future year forecasts.

Senior Developer

Full-time

Accenture Solutions Pvt. Ltd., India

Nov 2019 – May 2021, Bangalore, India

- Developed SAP analytics tool (In Process Analytics - IPA), creating database objects and data models to provide operational insights.
- Developed various Finance related KPIs using complex SQL scripts in Calculation Views and spearheaded multiple deployments.
- Introduced SAP Predictive Analytics to reduce development time and reuse functionalities for KPIs, preparing production planning reports.
- Designed and implemented SAP HANA data modeling using Attribute, Analytic, and Calculation Views.
- Involved in building data processing algorithms for R server for cluster analysis, creating procedures in HANA Database.

Database Developer

Full-time

Accenture Solutions Pvt. Ltd., India

Feb 2018 – Oct 2019, Bangalore, India

- Managed all development activities for the Accenture Testing Accelerator for SAP (ATAS) tool and completed various product deployments.
- Maintained production and quality database servers, analyzing business requirements and transforming them into attribute mapping documents.
- Created and updated database objects including tables, views, stored procedures, functions, and packages.
- Monitored SQL Server Error Logs and Application Logs via SQL Server Agent.
- Prepared Data Flow Diagrams and Entity-Relationship Diagrams using UML; responsible for designing, developing, and normalization of database tables.
- Performed performance tuning using SQL Profiler and involved in QA, UAT, knowledge transfer, and support activities.

Projects

Customer Segmentation and RFM analysis

Part of Deloitte Tenure

- Established a HANA-Python interface and performed advanced analytics on Python.
- Successfully segmented data into five core segments using K-means and conducted RFM analysis.
- Developed an algorithm to categorize any new customer under the defined segments.
- *Technical Environment:* Anaconda3, Python3.6, HANA SPS12

Telecom Invoice State Detection

Part of Deloitte Tenure

- Developed a decision tree model to classify open/closed invoices, reducing manual verification effort by 60%.
- *Technical Environment:* R, SAP PAL, SAP HANA SPS12

Skills

Programming Languages: R, Python, C#

Databases & Platforms: SAP HANA, SAP HANA SQL, SAP HANA PAL, MS SQL, SQL Server (2008/2014), PL-SQL, T-SQL

BI & Visualization: Tableau, SAP Lumira, SAP AO, BOBJ

Data Science & ML: Linear Programming, Data Modelling, Advance Analytics, Deep Learning, Machine Learning, Time Series Forecasting, K-means, RFM Analysis, NLP, ETL

Domain Analytics: SCM Analytics, Retail Analytics, Social Media Analytics, Healthcare Analytics, Financial Services BI

Tools & Technologies: Anaconda3, Python3.6, HANA SPS12, Visual Studio 2010, Windows Server, Performance Monitor, SQL Server Profiler, UML, LSTM Models, Decision Trees
