

Fatma Farouk

Data Scientist

fatma.farouk@email.com | +20 101 234 5678 |  github.com/fatma-farouk |  linkedin.com/in/fatma-farouk | fatmafarouk.com

Summary

Highly motivated Data Scientist with six months of hands-on experience in Machine Learning, Deep Learning, and NLP. Possesses a strong ability to quickly grasp technical concepts, a high level of energy, and a result-oriented approach. Eager to leverage strong analytical and programming skills to contribute to innovative data-driven solutions.

Education

Master of Engineering in Computer Technology & Application

Truba Institute of Engineering & Information Technology

January 2018, Bhopal, India

B.E. in Computer Science

RKDF Institute of Science and Technology College of Engineering

January 2010, Bhopal, India

Polytechnic in Information Technology

SATI Engineering College in Vidisha

January 2006, Vidisha, India

Experience

Data Scientist

On-Site

RNT.AI Technology Solution

June 2023 – December 2023

- Performed text classification using Machine Learning algorithms with Python.
- Gained practical knowledge of Deep Learning algorithms, including Recurrent Neural Networks (RNN).
- Developed custom data models and algorithms to apply to various datasets.
- Utilized Python packages such as Pandas, Scikit-learn, TensorFlow, NumPy, Matplotlib, and NLTK.
- Demonstrated comfort with SQL and MySQL for data management.
- Conducted sentiment analysis on textual data.
- Applied classification techniques like Tf-idf and LSA with cosine similarity using Machine Learning algorithms.
- Implemented web crawling using Selenium WebDriver and BeautifulSoup with Python.

Sales Representative

On-Site

Life Insurance Corporation of India

January 2019 – December 2021

- Explained policy features and benefits clearly to customers.
- Maintained updated knowledge of life insurance products and shared information with customers.

Skills

Programming Languages: Python, SQL, HTML, CSS

Libraries & Frameworks: Pandas, Scikit-learn, TensorFlow, NumPy, Matplotlib, NLTK, Selenium, BeautifulSoup

Machine Learning: Deep Learning, Natural Language Processing (NLP), Text Classification, Recurrent Neural Networks (RNN), Sentiment Analysis, Tf-idf, LSA, Cosine Similarity

Databases: MySQL

Tools & Techniques: Web Scraping, Web Crawling, Custom Data Models, Algorithms

Soft Skills: Quick Learner, Result-Oriented, High Energy Levels, Adaptability
