Summary

Highly motivated and results-oriented professional with six months of experience in Data Science. Possesses a strong ability to quickly grasp technical concepts, a willingness to learn, and a good foundation in computer subjects. Eager to leverage machine learning, deep learning, and NLP skills to drive impactful solutions.

Education

Truba Institute of Engineering & Information Technology Master of Engineering Computer Technology & Application	January 2018 Bhopal, Madhya Pradesh
RKDF Institute of Science and Technology College of Engineering B.E. Computer Science	January 2010 Bhopal, Madhya Pradesh
SATI Engineering College in Vidisha Polytechnic Information Technology	January 2006 Vidisha, Madhya Pradesh

Experience

Data Scientist RNT.AI Technology Solution	Full-time June 2023 - Present
- Performed text classification using Machine Learning algorithms with Python. - Applied Deep Learning algorithms, including Recurrent Neural Networks (RNNs). - Developed custom data models and algorithms for various datasets. - Utilized Python packages such as Pandas, Scikit-learn, TensorFlow, NumPy, Matplotlib, and NLTK. - Proficiently worked with SQL and MySQL for data management. - Conducted sentiment analysis on textual data. - Applied classification techniques like Tf-idf and LSA with cosine similarity for analyzing leave datasets. - Implemented web crawling using Selenium WebDriver and BeautifulSoup with Python.	
Insurance Advisor Life Insurance Corporation of India	Full-time Jan 2011 - Dec 2012
- Explained policy features and benefits to prospective and existing customers. - Maintained up-to-date knowledge of life insurance products and shared information with customers.	

Projects

M.Tech Thesis Project	January 2003
Completed M.Tech thesis work at BMCH School in Ganj basoda.	

Certificates

Skills

Machine Learning: Machine Learning - Deep Learning - NLP - Text Classification - Sentiment Analysis - Tf-idf - LSA - Cosine Similarity
Programming: Python - SQL - MySQL
Libraries & Frameworks: Pandas - Scikit-learn - TensorFlow - NumPy - Matplotlib - NLTK
Web Technologies: Web Scraping - Web Crawling - Selenium WebDriver - BeautifulSoup - HTML - CSS

Extracurricular Activities
