Education

Institute of Mechanical Engineering Diploma in Mechanical Engineering	Mumbai, Maharashtra, India May 1999 - September 2002
ITES Diploma in Mechanical Engineering Services	Mumbai, Maharashtra, India May 1998 - May 1999
Industrial Training Institute Industrial Training Certificate	Mumbai, Maharashtra, India May 1993 - May 1995

Experience

Quality Control / Mechanical Inspector

MUKAND LTD Oct 2002 - Sep 2005

- Performed raw material inspection and prepared gauges for quality assurance.
- Conducted marking on housing for machining and ensured proper surface finishing.

Mechanical Design Engineer / Detailer

JOIST- O- MECH Engg. Pvt. Ltd Oct 2005 - Sep 2009

- Responsible for detailing engineering drawings and preparing Bills of Material (BOM).
- Conducted raw material inspection for various projects.
- Engaged in prototype manufacturing, including 3D modeling.

Design & Proposal Engineer

M/s Schrader Duncan Ltd Oct 2009 - Oct 2013

- Managed project execution, vendor development, and supply chain, including interaction with vendors for timely order action and negotiation.
- Designed or modified mechanical, hydraulic/pneumatic, and fabricated assemblies, including layouts, schematics, and detailed drawings as per specification.
- Generated electrical/mechanical product specifications, standard operating procedures (SOPs), and maintenance manuals; performed basic mechanical design.
- Participated in developing innovative solutions with design, development, sales, and marketing teams.
- Defined, coordinated, performed, and generated engineering test reports and analysis.
- Coordinated with production managers to ensure all manufacturing processes adhered to process flow in relevant departments.
- Maintained records of Non-Conformity (NC) raised during internal audits, implementing corrective actions to close them.
- Managed ISO9001-2015 documentation and promoted awareness among employees.
- Communicated with channel partners, O.E.M.s, dealers, consultants, and end customers to offer technically feasible designs.
- Carried out internal audits as per plan and schedule, maintaining controlled drawing records.

Project & Proposal Manager

Rotex Engineers & Manufacturing Pvt. Ltd Nov 2015 - June 2016

- Managed and enhanced activities related to proposals for pneumatics/fabrication projects and products.
- Oversaw project execution, vendor development, and supply chain management, including vendor interaction and negotiation for timely order action.
- Contributed to production design, new manufacturing processes, and new product development, creating customized solutions for sectors like Steel, Power, Cement, and Petrochemical.
- Prepared technical data sheets according to tender specifications and calculated price structures, analyzing cost proposals.

- Monitored project progress throughout the job and compared it with the schedule of work.
- Maintained fruitful relationships with existing customers.
- Reviewed vendor evaluation and registration based on supply time and product quality; examined products and supplies for quality assurance.

Project & Proposal Engineer / Consultant

M/s Duncan Engineering Ltd

July 2016 - Dec 2019

- Led project execution, vendor development, and supply chain management, including timely vendor interaction and negotiation.
- Collaborated directly with customers to understand processes and develop optimal solutions, leading proposal engineering teams and providing technical support.
- Partnered with the sales team to represent the company professionally, gathering data and defining project requirements.
- Worked with engineers and designers to develop and quote cost-effective solutions; performed cost estimation and prepared proposals/quotations based on customer technical specifications.
- Identified production processes, machine/bought-out item requirements, and coordinated with customers to clarify exact needs.
- Addressed critical problems and devised proper solutions within specified timeframes.
- Focused on production design, new manufacturing processes, and new product development, delivering customized solutions for industries including Steel, Power, Cement, and Petrochemical.
- Implemented cost-saving techniques and modifications to achieve substantial reductions in O & M expenditures, ensuring adherence to budget.
- Cultivated and maintained strong relationships with existing customers.

Sr. Executive - Mechanical Engineering - Automation & Projects Consultant

Egy-Tech Automation Solutions, Cairo, Egypt

Jan 2020 - Present

- Provided comprehensive application support for inside and outside sales channels, offering expert product selection and material technical recommendations.
- Drove technical competency through training and actively participated in field service trips as directed by management.
- Actively supported the Projects Quotations team by handling technical aspects, including selection, sizing, and costing of Pneumatic Automation Products, valves, linear & rotary actuators, and field fabrication based on customer specifications.
- Reviewed customer specifications in detail, offering comments, clarifications, and alternative solutions.
- Managed the end-to-end quotation process, ensuring accuracy, timeliness, and adherence to technical and commercial requirements, including active participation in customer negotiations.
- Oversaw order finalization, including payment collection, purchase order (PO) reviews, discrepancy resolution, and order transfer to manufacturing, providing post-order and after-sales support.
- Led proposal/estimation engineering, including reviewing RFQs, estimating costs for a wide range of mechanical components and projects, and coordinating with instrumentation & electrical departments.
- Developed and maintained vendor relationships, continuously following up on quotations and evaluating estimated vs. actual costs to ensure realistic project budgets.
- Managed engineering procurement and purchasing, focusing on raw material acquisition, cost saving initiatives, vendor development, and supply chain efficiency.
- Streamlined procurement processes by researching and evaluating vendors, comparing technical bids, and maintaining comprehensive databases of suppliers and purchasing plans.

Skills

Software: Microsoft Office (Word, Excel), AutoCAD, MicroStation J, ERP, 3D Modeling Software (10+ years experience)

Engineering: Mechanical Design, Automation, Project Management, Proposal Engineering, Estimation, Procurement, Supply Chain Management, Vendor Development, Fabrication, Quality Control

Technical: Pneumatic Systems, Valves, Actuators, Piping, BOM Preparation, Technical Data Sheets, ISO9001-2015

Business: Pre-Sales, Inside Sales, Customer Negotiation, Cost Analysis, Contract Management, RFQ/PO Management
