Education

Savitribai Phule Pune University

BE Mechanical Engineering

Pune, India

June 2014 - June 2018

Experience

Mechanical Design Engineer

Push Engineering Pvt Ltd

Full-time, On-site

January 2023 - Present

- Designed and manufactured various types of ice-making plants.
- Developed designs for pressure vessels, condensers, and conveyors using 3D modeling software.
- Managed Bill of Material (BOM) preparation for production.
- Utilized ERP systems for efficient project management and material tracking.

Research Experience

Research Assistant, R&D Department

Central Water and Power Research Station (CWPRS)

Full-time

July 2018 - June 2019

- Contributed to projects on generating sea waves in laboratory settings for the design of port and harbor structures in Mumbai, Chennai, Goa, Japan, and Bangladesh.
- Gained experience with wave generation mechanisms, including hydraulic, pneumatic, and regular wave generators within the mechanical workshop.
- Specialized in hydraulic system wave generation, encompassing the design of servo actuators, axial piston pumps, and electric motors under the guidance of 'Scientist B'.

Skills

Software: AutoCAD - CATIA V5 - SolidWorks - ProE - MS Office

Extracurricular Activities

Treasurer & Event Organizer

Mechanical Student Association (MESA), Savitribai Phule Pune University

During University

- Organized a National-level Technical event within the Mechanical Student Association (MESA).
- Served as Coordinator and Treasurer for the Mechanical Student Association (MESA).
- Participated in a 3D printing workshop during college.
- Completed Work Readiness training conducted by NASSCOM Foundation and Global Talent Track.
- Completed Life Skills training conducted by NASSCOM Foundation and Global Talent Track.
