Summary

A hard-working and self-confident individual, capable of adapting to diverse work environments. Possessing a strong foundation in mechanical engineering design and a passion for innovative project development.

Education

B.E. Mechanical Engineering	2016
Alamuri Ratnamala Institute of Engineering & Technology	Andhra Pradesh, India

H.S.C.	2010
Mumbai University	Mumbai, Maharashtra, India

S.S.C.	2008
Prakash Jr. College of Science & Commerce / S.M.T. Rajdevi Hindi High School	Maharashtra State Board, India

Experience

Design Engineer	2018 - Present
Surya Fitness	Cairo, Egypt

- Currently working as a Design Engineer, contributing to product development and innovation.
- Applies mechanical design principles to enhance product functionality and user experience.

Mechanical Design Engineer	Approx. 2017 - 2018 (1 year)
Sanarco Engineering Pvt. Ltd.	Cairo, Egypt

- Gained 1 year of experience as a Mechanical Design Engineer, focusing on industrial design and engineering solutions.
- Contributed to various mechanical design projects from conceptualization to implementation.

Projects

Automatic Wall Plastering Machine	Academic Project
--	------------------

- Developed an automated plastering machine designed to simplify and accelerate rendering processes in the construction industry.
- Engineered a machine capable of applying conventional cement mortar to achieve a smooth, flat finish.
- Demonstrated significant potential for future scope and innovation in construction automation.

Skills

CAD Software: AutoCAD - SolidWorks - CATIA (12 months experience)
