Education

Institute of Mechanical Engineering

Diploma in Mechanical Engineering

Mumbai, India

May 1999 - September 2002

ITES

Diploma in Mechanical Engineering Services

Mumbai, India

May 1998 - May 1999

Industrial Training Institute

Certificate in Industrial Training (Mechanical Trades)

Mumbai, India

May 1993 - May 1995

Experience

Sr. Executive-Mechanical Engineering-Automation & Projects Consultant

Consultant - On-Site/Remote

Future Engineering Consultancy

June 2016 - Present

- Provided applications support to inside sales personnel and outside sales channels, offering product selection and materials of construction technical recommendations.
- Participated in necessary training activities to establish technical competency and in field service trips as directed by management.
- Supported Brand Managers and/or Product Managers as needed, and actively supported the Projects Quotations team.
- Responsible for the technical part of project quotations including selection, sizing, and costing of Pneumatic Automation Products, valves, linear & rotary actuators, and field fabrication & equipment based on customer's data sheets and engineering drawings.
- Traveled as required to support field sales channels and promote company products and services.
- Performed detailed reviews of customer specifications, providing comments, clarifications, and alternatives.
- Sized and selected valves, actuators, and prepared cost-effective techno-commercial quotations and solutions.
- Coordinated with other technical departments to minimize technical and cost risk.
- Sent accurate and on-time quotations, including all technical and commercial aspects, and participated in customer negotiation processes.
- Followed up on quotations to close orders and for payment collection.
- Performed Purchase Order (PO) reviews to ensure critical elements were correct, escalating discrepancies and securing PO amendments if required.
- Created order transfer files for factory submission and supported post-order activities & after-sales service.
- Reviewed and received RFQs for company products and solutions.
- Estimated Pneumatic Automation Products & Projects, valves, linear & rotary actuators, field equipment, Piping, and Fabricated equipment.
- Plotted inquiries to vendors for critical bought-out items and continuously followed up for quotations.
- Applied thumb rule or standard design practices for achieving accuracy with less time in estimation.
- Analyzed and evaluated estimated cost and actual cost of past manufactured jobs to arrive at realistic cost estimates.
- Maintained databanks of all quotations and coordinated with Instrumentation & electrical departments for costing.
- Managed the estimation department for timely offer submissions, conducted site visits for projects, and coordinated with purchase and process departments.
- Attended customer inquiries meetings and developed vendors.
- Prepared statements of inquiries pending for estimation/under progress.
- Understood client's concerns/pain areas/requirements and offered suitable and optimized solutions with techno-commercial proposals.
- Assigned work to Jr. Proposal executives/engineers and guided/coordinated with design, CAD, sales, marketing, project & commercial departments.
- Procured Steel/Raw Material & semi-finish Products based on project requirements.

- Achieved continuous improvement in negotiation processes and identified cost-saving opportunities.
- Improved turn-round time and engaged in new vendor development, contract management, and tenders.
- Achieved target savings against budget and/or last purchase rates, developed new vendors, obtained quotations, and finalized purchases.
- Researched and evaluated potential vendors and suppliers, requested quotes, and performed technical comparisons of prices.
- Maintained good relationships with vendors and suppliers, examined products and supplies for quality, and digitized procurement processes.
- Tracked incoming & future purchasing plans, project inventory, delivery arrival times, and noted actual arrival times.
- Organized and updated databases of suppliers, delivery times, invoices, and quantity of supplies.
- Collaborated with financial team members on contracts, invoicing, and other financial matters.
- Sourced suppliers for various materials from product finders and the internet.
- Created RFQs for project materials, equipment's, and services for various departments.
- Reviewed Vendor evaluation & Vendor registration based on supply time & product quality.

Manager, Proposal/Project Engineering

Full-time - On-Site

Rotex Engineers & Manufacturing Pvt. Ltd

Nov 2015 - June 2016

- Managed and enhanced activities related to proposals for pneumatics/fabrication projects & products.
- Executed projects, led vendor development, and managed the supply chain, interacting with vendors for timely order action and negotiation.
- Engaged in production design, new manufacturing process development, and new product development.
- Developed customized manufacturing solutions for sectors including Steel, Power & Cement, and Petrochemical.
- Prepared technical data sheets as per tender specifications and calculated price structures, analyzing cost proposals.
- Monitored progress throughout jobs, comparing against schedules of work.
- Maintained fruitful relationships with existing customers.
- Reviewed vendor evaluation and vendor registration based on supply time & product quality.
- Examined and reviewed products and supplies to ensure quality.

Design & Proposal Engineer

Full-time - On-Site

M/s Schrader Duncan Ltd,
Pune, Ranjangaon MIDC, India

June 2013 - Oct 2015

- Executed projects, managed vendor development, and supply chain, interacting with vendors to ensure timely order action and negotiation.
- Designed or modified mechanical, hydraulic/pneumatic, and fabricated assemblies along with layouts/schematics and detailed drawings as per specifications.
- Generated electrical or mechanical product specifications, standard operating procedures, and maintenance manuals.
- Performed basic mechanical design when required.
- Participated in growth and developed innovative solutions with design & development, sales & marketing teams.
- Defined, coordinated, performed, and generated engineering test reports and engineering analyses.
- Coordinated with production managers to implement and ensure all manufacturing processes adhered to process flow in relevant departments.
- Maintained records of Non-Conformity (NC) raised during internal audits and ensured corrective actions were closed.
- Maintained records of obsolete documents and stayed in touch with all HODs.
- Maintained ISO documents pertaining to ISO9001-2015 and raised awareness among employees.
- Coordinated and communicated with channel partners, O.E.M.s, dealers, consultants, and end customers for design and technically feasible offers.
- Carried out internal audits as per audit plan and schedule, and maintained records of controlled drawings.

Proposal & Estimation Engineer

Full-time - On-Site

M/s Duncan Engineering Ltd,
Pune, Ranjangaon MIDC, India

Mar 2010 - May 2013

- Executed projects, led vendor development, and supply chain management, interacting with vendors to ensure timely order action and negotiating with them.
- Worked directly with customers to understand their processes and developed optimal solutions for their requirements, leading the proposal engineering team and providing technical support.
- Collaborated with the sales team to professionally represent the company at customer sites, gathered data, and asked pertinent questions to define project scope.
- Worked with engineers and designers to develop and quote cost-effective solutions.
- Performed cost estimation, prepared proposals & quotations based on customer's technical specifications and identified production processes and machine/bought-out item requirements.
- Coordinated with customers to understand exact requirements.
- Identified critical problems and worked out proper solutions within specified timeframes.
- Contributed to production design, new manufacturing process development, and new product development.
- Developed customized manufacturing solutions for Steel, Power & Cement, and Petrochemical sectors.
- Executed cost-saving techniques/measures and modifications to achieve substantial reductions in O&M expenditures and worked within budget.
- Maintained fruitful relationships with existing customers.

Fabrication Field Engineer

IOIST-Q-MECH Engg. Pvt. Ltd
Rabale MIDC, Thane, India

Full-time - On-Site

Jan 2007 - Feb 2010

- Performed detailed drawing, prepared Bill of Materials (BOM) & raw material inspection.
- Engaged in prototype manufacturing using 3D modeling.

Fabrication Field Engineer / Quality Inspector

MUKAND LTD
Kurla, India

Full-time - On-Site

Oct 2002 - Dec 2006

- Conducted raw material inspection and prepared gauges for inspection.
- Performed marking on housing for machining and checked surface finishing.

Skills

Software & Tools: Microsoft Office (Word, Excel), AutoCAD, Microstation J, ERP, 3D Modeling Software

Engineering & Technical: Mechanical Design, Pneumatic Automation, Hydraulic Systems, Fabrication, Actuators, Valves, Piping, Equipment Sizing, Technical Specifications, BOM Preparation, Prototyping, Production Design, New Product Development, Quality Assurance, ISO 9001-2015

Project & Business Management: Project Execution, Proposal Engineering, Estimation, Costing, RFQ/RFP Management, Vendor Development, Procurement, Supply Chain Management, Contract Management, Negotiation, Sales Support, Pre-Sales, After Sales Service, Customer Relationship Management, Techno-Commercial Proposals
