Summary

Hard-working and self-confident individual, adept at adapting to diverse work environments.

Education

ALAMURI RATNAMALA INSTITUTE OF ENGINEERING & TECHNOLOGY

B.E. Mechanical Engineering

January 2016, Andhra Pradesh, India

MUMBAI UNIVERSITY

H.S.C.

January 2010, Mumbai, Maharashtra, India

MAHARSHTRA STATE BOARD

S.S.C.

January 2008, Maharashtra, India

Experience

Design Engineer

Full-time - On-site

SURYA FITNESS

January 2022 - Present

- Currently contributing as a design engineer.

Mechanical Design Engineer

Full-time - On-site

SANARCO ENGINEERING PVT. LTD.

January 2021 - January 2022

- Served as a mechanical design engineer for 1 year.

Projects

AUTOMATIC WALL PLASTERING MACHINE

2020 - 2021

- Developed a unique automated plastering machine, ideally suitable for the construction/building industry.
- Engineered the machine to make rendering easier, faster, and more effortless compared to manual application.
- Designed the automated plastering machine to work effectively with conventional cement mortar, achieving a smooth, flat finish.
- Identified significant future scope and potential for market impact within the construction sector.

Skills

Technical Skills: Autocad - SolidWorks - CATIA (12 months experience)
