Summary

Hard-working and self-confident professional, adaptable to diverse work environments.

Education

ALAMURI RATNAMALA INSTITUTE OF ENGINEERING & TECHNOLOGY

B.E. Mechanical Engineering

January 2016, Visakhapatnam, India

MUMBAI UNIVERSITY

H.S.C.

January 2010, Mumbai, Maharashtra, India

PRAKASH Jr. COLLEGE OF SCIENCE & COMMERCE / S.M.T. RAJDEVI HINDI HIGH SCHOOL

S.S.C.

January 2008, Ma

Experience

Design Engineer

On-Site

SURYA FITNESS

June 2017 - Present, Mumbai, India

- Currently serving as a Design Engineer, contributing to product development and innovation.

Mechanical Design Engineer

On-Site

SANARCO ENGINEERING PVT LTD

June 2016 - May 2017, Mumbai, India

- Functioned as a Mechanical Design Engineer for one year, developing and optimizing mechanical designs.

Projects

Automatic Wall Plastering Machine

- Developed a unique automated plastering machine, ideally suited for the construction and building industry.
- Designed the machinery to make rendering easier, faster, and more effortless compared to manual application.
- Enabled the automated plastering machine to work effectively with conventional cement mortar, achieving a smooth, flat finish.
- Identified significant future scope for this automated plastering technology within the construction sector.

Skills

CAD Software: Autocad - Solidworks - Catia
