Education

Institute of Mechanical Engg

Diploma Mechanical Engineering

May 1999 – Sep 2002, Mumbai, Maharashtra, India

ITES Institute

Diploma Mechanical Engineering Services

May 1998 – May 1999, Mumbai, India

Industrial Training Institute

Industrial Training Certificate

May 1993 – May 1995, Mumbai, Maharashtra, India

Experience

Sr. Executive - Mechanical Engineering, Automation & Projects Consultant

Full-time

Egy-Tech Solutions

Aug 2016 – Present, Cairo, Egypt

- **Application Engineering / Pre Sales & Inside Sales:**
- Provided applications support to inside sales personnel and outside sales channels, offering product selection and technical materials recommendations.
- Participated in necessary training activities to establish technical competency and in Field Service trips as directed by Top Management.
- Assisted Brand Managers and/or Product Managers as needed.
- Supported the Projects Quotations team, responsible for technical aspects including selection, sizing, and costing of Pneumatic Automation Products, valves, linear & rotary actuators, and field fabrication based on customer data sheets and Engineering Drawings.
- Traveled as required to support the field sales channel and to promote company products and services.
- Performed detailed reviews of customer specifications, providing comments, clarifications, and alternatives.
- Sized and selected valves, actuators, and prepared cost-effective techno-commercial quotations as per customer requirements.
- Coordinated with other technical departments to minimize technical and cost risk.
- Ensured accurate and on-time quotation submission, including technical and commercial details as per customer documentation requests; participated in customer negotiation process.
- Followed up on quotations to close orders and for payment collection.
- Performed PO reviews to ensure correctness, escalating discrepancies to Senior Management and customers for amendments if required.
- Created order transfer files for factory submission and supported post-order activities & after-sales service to maintain customer satisfaction.
- **Proposal/Estimation Engineering & Products Costing:**
- Reviewed and received RFQs for company products and solutions.
- Estimated Pneumatic Automation Products & Projects, valves, linear & rotary actuators, field equipment, Piping, and Fabricated equipment.
- Plotted enquiries to vendors for critical bought-out items and continuously followed up for quotations.
- Applied thumb rules and standard design practices for accurate and timely cost estimation.
- Analyzed & evaluated estimated vs. actual costs of past jobs to derive realistic cost estimates.
- Maintained databanks of all quotations for ready access.
- Coordinated with Instrumentation & electrical departments for costing.
- Managed the estimation department for timely offer submissions; conducted site visits for projects and coordinated with Purchase and Process departments.
- Attended Customer Enquiries meetings and facilitated vendor development.
- Prepared statements for enquiries pending or under progress.

- Understood client concerns/requirements and offered suitable and optimized Chemtronics solutions with technically feasible & commercially viable techno-commercial proposals.
- Assigned work to Junior Proposal executives/Engineers.
- Guided & coordinated with design, CAD, sales, marketing, project & commercial departments.
- **Engg. Procurement & Purchase, Vendor Development & Supply Chain:**
- Procured Steel/Raw Material & semi-finish Products based on project requirements.
- Achieved continuous improvement in negotiation processes & identified cost-saving opportunities.
- Improved turn-around time and led new vendor development, contract management & tenders.
- Met target savings against budget/last purchase rates, developed new vendors, and finalized quotations.
- Researched and evaluated potential vendors/suppliers, requested quotes, performed technical price comparisons, and maintained strong vendor relationships.
- Examined and reviewed products/supplies for quality assurance & digitized procurement processes.
- Tracked incoming & future purchasing plans, project inventory, and delivery times; organized and updated supplier, invoice, and supply quantity databases.
- Collaborated with financial team members on contracts, invoicing, and other financial matters.
- Identified suppliers for various materials from product finders and internet sources.
- Created RFQs for materials, equipment, and services for projects and departments.
- Reviewed vendor evaluation & registration based on supply time & product quality.

Engineering Executive (Proposal & Project Management)

Full-time

Rotex Engineers & Manufacturing Pvt. Ltd

Nov 2015 – Jun 2016, Dombivali MIDC, Kalyan, India

- Managed & enhanced activities related to proposals for pneumatics/fabrication projects & products.
- Executed projects, managed vendor development, and supply chain, interacting with vendors for timely order action & negotiation.
- Spearheaded production design for new manufacturing processes and product development, creating customized manufacturing solutions for steel, power, cement, and petrochemical sectors.
- Prepared technical data sheets as per tender specifications.
- Calculated price structures and analyzed cost proposals.
- Monitored project progress against schedules.
- Maintained fruitful relationships with existing customers.
- Reviewed vendor evaluation & registration based on supply time & product quality.
- Examined and reviewed products and supplies to ensure quality.

Proposal & Estimation Engineer

Full-time

Duncan Engineering Ltd

Oct 2010 – Oct 2015, Pune, Ranjangaon MIDC, India

- Managed project execution, vendor development, and supply chain, including vendor interaction for timely order action and negotiation.
- Collaborated directly with customers to understand processes and develop optimal solutions, leading the proposal engineering team and providing technical support.
- Worked with the sales team to professionally represent the company, gather data, and define project requirements.
- Collaborated with engineers and designers to develop and quote cost-effective solutions.
- Performed cost estimation, prepared proposals & quotations based on customer technical specifications, and identified production processes/machine/bought-out item requirements.
- Coordinated with customers to understand exact requirements.
- Identified critical problems and developed proper solutions within specified timeframes.
- Engaged in production design, new manufacturing processes, and new product development, creating customized manufacturing solutions for steel, power, cement, and petrochemical sectors.
- Implemented cost-saving techniques and modifications to achieve substantial reductions in O & M expenditures, operating within budget.
- Maintained fruitful relationships with existing customers.

Design & Proposal Engineer

Full-time

Schrader Duncan Ltd

Oct 2005 – Sep 2010, Pune, Ranjangaon MIDC, India

- Managed project execution, vendor development, and supply chain, including vendor interaction for timely order action and negotiation.
- Designed or modified mechanical, hydraulic/pneumatic assemblies, and fabricated assemblies, including layouts/schematics and detailed drawings as per specifications.
- Generated electrical or mechanical product specifications, standard operating procedures, and maintenance manuals; performed basic mechanical design as needed.
- Participated in growth initiatives and developed innovative solutions with the design & development, sales & marketing teams.
- Defined, coordinated, performed, and generated engineering test reports and engineering analyses.
- In coordination with the production manager, ensured all manufacturing processes adhered to process flow in relevant departments.
- Maintained records of Non-Conformity (NC) raised during internal audits and closed them with corrective actions.
- Maintained records of obsolete documents and liaised with all HODs.
- Maintained ISO documents pertaining to ISO9001-2015 and promoted awareness among employees.
- Coordinated & communicated with channel partners, O.E.M.s, dealers, consultants & end customers for design and technically feasible offers.
- Carried out internal audits as per audit plan and schedule, maintaining records of controlled drawings.

Fabrication Field Engineer / Detailing Engineer

Full-time

JOIST- O- MECH Engg. Pvt. Ltd

Oct 2002 – Sep 2005, Rabale MIDC, Thane, India

- Performed detailing of drawings, preparations of Bill of Materials (BOM) & raw material inspection.
- Managed prototype manufacturing (3D modeling).

Fabrication Field Engineer / Quality Control

Full-time

MUKAND LTD

May 1995 – Apr 1998, Kurla, India

- Conducted raw material inspection, prepared gauges for inspection, marked housings for machining, and checked surface finishing.

Projects
