Summary

I am a hard-working and self-confident individual, capable of adapting to various work environments.

Education

ALAMURI RATNAMALA INSTITUTE OF ENGINEERING & TECHNOLOGY

B.E. Mechanical Engineering

January 2016, Mumbai, India

MUMBAI UNIVERSITY

H.S.C.

January 2010, Mumbai, Maharashtra, India

PRAKASH Jr. COLLEGE OF SCIENCE & COMMERCE

S.S.C.

January 2008, Maharashtra, India

S.M.T. RAJDEVI HINDI HIGH SCHOOL

Maharashtra State Board, India

Experience

Design Engineer

On-Site

SURYA FITNESS

February 2017 - Present

- Working as a Design Engineer, contributing to product development and design.

Mechanical Design Engineer

On-Site

SANARCO ENGINEERING PVT LTD

February 2016 - January 2017

- Gained 1 year of experience as a Mechanical Design Engineer.

Projects

AUTOMATIC WALL PLASTERING MACHINE

- Developed a unique automated plastering machine, ideally suitable for the construction/~~Building~~ ^{Building} ~~Not specified~~ ^(Not specified)
- Designed the machine to make rendering easier, faster, and more effortless compared to manual application.
- Ensured the automated plastering machine works effectively with conventional cement mortar to achieve a smooth, flat finish.
- Identified significant future scope for the automated plastering machine due to its innovative features and efficiency.

Skills

CAD Software: AutoCAD - SolidWorks - CATIA

Experience: 12 months in CAD Software
