Education

Institute of Mechanical Engineering

Diploma in Mechanical Engineering

Mumbai, Maharashtra, India

May 1999 – Sep 2002

Industrial Training Institute

Diploma in Mechanical Engineering Services (ITES)

Mumbai, Maharashtra, India

May 1998 – May 1999

Industrial Training Institute

Industrial Training

Mumbai, Maharashtra, India

May 1993 – May 1995

Experience

Sr. Executive - Mechanical Engineering - Automation & Projects Consultant

Full-time

Egy-Tech Solutions

Jan 2018 – Present

• Application Engineering / Pre Sales & Inside Sales:

- Provided applications support to inside sales personnel and outside sales channels, offering product selection and materials of construction technical recommendations.
 - Participated in necessary training activities to establish technical competency & in Field Service trips as directed by Top Management.
 - Assisted Brand Managers and/or Product Managers as needed.
 - Supported the Projects Quotations team, responsible for the technical part of project quotations including selection, sizing and costing of Pneumatic Automation Products, valves, linear & rotary actuators and field fabrication & equipment based on customer's data sheets and Engineering Drawings.
 - Travelled as required to support the field sales channel and to promote company products and services.
 - Performed detailed reviews of customer specifications, providing comments, clarifications and alternatives to customer requirements.
 - Sized and selected valves, actuators, and prepared cost effective techno-commercial quotations and solutions as per customers technical requirements.
 - Coordinated with other technical departments as required, to minimize technical and cost risk.
 - Sent quotations accurately and on-time, including all technical and commercial aspects as per customer documentation requests. Participated in the customer negotiation process, including commercial and technical negotiations.
 - Followed up on quotations to close orders and for payment collection.
 - Performed PO reviews to ensure all critical elements are correct, escalated discrepancies to Senior Top Management and customers, and secured PO amendments if required.
 - Created the order transfer file for submission to the factory in accordance with PO. Supported factory for any post-order activities & after-sales service to develop and maintain good customer service.
- #### • Proposal/Estimation Engineering & Products Costing:
- Reviewed and received RFQs for company products and solutions.
 - Estimated Pneumatic Automation Products & Projects, valves, linear & rotary actuators and field equipment, Piping, Fabricated equipment's etc.
 - Plotted enquiries to vendors for critical bought-out items and continuously followed up with vendors for quotations.
 - Applied thumb rule or standard practice of design while estimating for achieving accuracy with less time.
 - Analyzed & evaluated estimated cost and actual cost of past manufactured jobs to arrive at realistic cost estimates.
 - Maintained databanks of all quotations for ready availability. Coordinated with Instrumentation & electrical departments for costing.
 - Handled estimation department while submitting offers on time. Visited sites for site projects, if required. Coordinated with Purchase and process departments. Attended Customer Enquiries meetings. Developed vendors.
 - Prepared statements for enquiries pending for estimation/under progress. Understood client's concerns, pain areas, and requirements, offered suitable & optimized tailor-made or predesigned solutions with techno-commercial proposals that were technically feasible & commercially viable.

- Assigned work to Junior Proposal Executives/Engineers. Guided & coordinated with design, CAD, sales, marketing, project & commercial departments.
- **Engineering Procurement & Purchase, Vendor Development & Supply Chain:**
- Procured Steel/Raw Material & semi-finish Products based on Projects requirement.
- Continuous improvement in negotiation processes & identified cost saving opportunities.
- Improved turn-around time & developed new vendors for Contract Management & Tenders.
- Achieved target savings against budget and/or last purchase rates & developed new vendors, obtaining quotation and finalization.
- Researched and evaluated potential vendors and suppliers, requested quotes and performed technical comparisons of prices, and maintained good relationships with vendors and suppliers.
- Examined and reviewed products and supplies to ensure quality & digitized procurement processes.
- Tracked incoming & future purchasing plans, Project inventory, delivery arrival time, and noted actual arrival time. Organized and updated database of suppliers, delivery times, invoices, and quantity of supplies.
- Collaborated with financial team members on contracts, invoicing, and other financial matters.
- Identified suppliers for various materials from product finders as well as from the internet. Created RFQs for materials for projects, departments, for project materials, equipment's and services.
- Reviewed Vendor evaluation & Vendor registration based on supply time & quality of products.

Project Executive

Duncan Engineering Ltd
Pune, Ranjangaon MIDC, India

Full-time
Jan 2017 – Dec 2017

- Executed projects, vendor development, and supply chain management, interacting with vendors to ensure timely action of orders & negotiating with vendors.
- Worked directly with customers to understand their process and develop optimal solutions for their requirements, led proposal engineering team & provided technical support to customers.
- Collaborated with the sales team to professionally represent the company to customers, gathered data and asked relevant questions to define projects.
- Worked with engineers and designers to develop and quote cost-effective solutions. Performed cost estimation, prepared proposals & quotations based on customer technical specifications & identified production processes and machines/bought-out item requirements. Coordinated with customers to understand exact requirements.
- Identified critical problems & worked out proper solutions within specified time frames.
- Engaged in production design for new manufacturing processes and new product development, developing customized manufacturing solutions (Steel, Power & Cement, petrochemical sectors).
- Executed cost saving techniques/measures and modifications to achieve substantial reduction in O & M expenditures and worked within budget.
- Maintained fruitful relationships with existing customers.

Project & Proposal Manager

Rotex Engineers & Manufacturing Pvt. Ltd.
Dombivli MIDC, Kalyan, India

Full-time
Nov 2015 – June 2016

- Managed & enhanced activities related to proposals for pneumatics/fabrication projects & products.
- Executed projects, vendor development, and supply chain management, interacting with vendors to ensure timely order action & negotiating with vendors.
- Engaged in production design for new manufacturing processes and new product development, developing customized manufacturing solutions (Steel, Power & Cement, petrochemical sectors).
- Prepared technical data sheets as per tender specification.
- Calculated price structure and analyzed cost proposals.
- Monitored progress throughout the job & compared it with the schedule of work.
- Maintained fruitful relationships with existing customers.
- Reviewed vendor evaluation & vendor registration based on supply time & quality of products.
- Examined and reviewed products and supplies to ensure quality.

Design & Proposal Engineer

Schrader Duncan Ltd
Pune, Ranjangaon MIDC, India

Full-time
Jan 2014 – Oct 2015

- Executed projects, vendor development, and supply chain management, interacting with vendors to ensure timely action of orders & negotiating with vendors.
- Designed or modified Mechanical assemblies, hydraulic/pneumatic assemblies, fabricated assemblies along with layouts/schematics and/or detailed drawings as per specification.
- Generated electrical or mechanical product specifications, standard operating procedures, maintenance manuals & performed basic mechanical design, if required.
- Participated in growth & developing innovative solutions with design & development, sales & marketing teams.
- Defined, coordinated, performed and generated engineering test reports & engineering analysis.
- In coordination with the production manager, implemented and assured that all manufacturing processes were followed according to the process flow in relevant Departments.
- Maintained records of Non-Conformity (NC) raised during internal audits and closed them with corrective actions.
- Maintained records of obsolete documents and remained in touch with all HODs.
- Maintained ISO documents pertaining to ISO9001-2015 and brought awareness among employees.
- Coordinated & communicated with channel partners, O.E.M.s, dealers, consultants & end customers for design & offered technically feasible solutions.
- Carried out internal audits as per audit plan and schedule, maintained the record of controlled drawings.

Fabrication Field Engineer (Hoist, Goods Lifts)

Full-time

IOIST-Q-MECH Engineering Pvt. Ltd.
Rabale MIDC, Thane, India

Jan 2012 – Dec 2013

- Performed detailing of drawings, preparations of BOM & raw material inspection.
- Engaged in prototype manufacturing (3D modeling).

Quality Inspection Engineer

Full-time

MUKAND LTD
Kurla, India

Jan 2010 – Dec 2011

- Conducted raw material inspection, preparations of gauges for inspection, marking on housing for machining, and checking surface finishing.

Skills

Software & Tools: Microsoft Word - Microsoft Excel - AutoCAD - MicroStation J - ERP Systems - 3D Modeling Software

Engineering Disciplines: Mechanical Engineering - Automation - Project Management - Application Engineering - Pre Sales - Inside Sales - Proposal Engineering - Estimation - Product Costing - Procurement - Vendor Development - Supply Chain Management - Production Design - Quality Inspection

Technical Expertise: Pneumatic Automation Products - Valves - Linear & Rotary Actuators - Field Fabrication - Piping - Fabricated Equipment - BOM Generation - Technical Data Sheets - Cost Estimation - Technical Documentation - ISO9001-2015
