

Rania Kamal

Mechanical Design Engineer

rania.kamal@email.com | +20 101 234 5678 | github.com/rania-kamal | [linkedin.com/in/rania-kamal](https://www.linkedin.com/in/rania-kamal) | raniakamal.com

Education

Savitribai Phule Pune University

CGPA: 3.86

BE Mechanical Engineering

June 2018, Pune, Maharashtra, India

Experience

Mechanical Design Engineer

Full-time

Egy-Tech Solutions

Jan 2023 - Present, Cairo, Egypt

- Designed and manufactured diverse ice-making plants, ensuring high quality and efficiency.
- Developed detailed designs for pressure vessels, condensers, and conveyor systems utilizing advanced 3D modeling software.
- Managed Bill of Materials (BOM) preparation and optimized material procurement processes using ERP systems.

Research Experience

Research Assistant, R&D Department, Mechanical Workshop

Full-time

Central Water and Power Research Station (Govt. of India)

July 2018 - June 2019, Pune, India

- Contributed to various projects involving sea wave generation in laboratory settings for designing port and harbor structures across India (Mumbai, Chennai, Goa) and international locations (Japan, Bangladesh).
- Operated and maintained wave generation systems utilizing both hydraulic and pneumatic mechanisms, including regular wave generators.
- Gained hands-on experience in the design of hydraulic systems, including servo actuators, axial piston pumps, and electric motors, under expert supervision.

Skills

Software: AutoCAD - CATIA V5 - SolidWorks - Pro/ENGINEER - Microsoft Office - ERP Systems

Design & Analysis: Mechanical Design - 3D Modeling - Pressure Vessel Design - Condenser Design - Conveyor Design - Bill of Materials (BOM) Preparation - Hydraulic System Design

Technical Concepts: Servo Actuators - Axial Piston Pumps - Electric Motors - Sea Wave Generation

Extracurricular Activities

Coordinator & Treasurer

Sep 2016 - May 2018

Mechanical Student Association (MESA), Savitribai Phule Pune University

- Organized a National-level Technical event, overseeing logistics and participant engagement.
- Served as Coordinator and Treasurer, managing club finances and operational activities.
- Participated in a 3D Printing workshop to enhance practical skills in additive manufacturing.
- Completed Work Readiness and Life Skills training programs by NASSCOM Foundation and Global Talent Track, focusing on professional development.
