

Ashraf Mahmoud

Design Engineer (Mechanical)

ashraf.mahmoud@email.com | +20 102 345 6789 |  github.com/ashraf-mahmoud |  linkedin.com/in/ashraf-mahmoud | ashrafmahmoud.com

Summary

A hardworking and self-confident Mechanical Design Engineer with a proven ability to adapt to diverse work environments. Possessing experience in CAD software and automated machinery design.

Education

B.E. MECHANICAL ENGINEERING

ALAMURI RATNAMALA INSTITUTE OF ENGINEERING & TECHNOLOGY January 2016, Nellore, Andhra Pradesh, India

H.S.C.

MUMBAI UNIVERSITY January 2010, Mumbai, Maharashtra, India

S.S.C.

S.M.T. RAJDEVI HINDI HIGH SCHOOL, MAHARASHTRA STATE BOARD January 2008, Mumbai, Maharashtra, India

Experience

Mechanical Design Engineer

SANARCO ENGINEERING PVT LTD Jan 2016 - Jan 2017, Mumbai, Maharashtra, India

- Contributed to mechanical design projects for 1 year as a Mechanical Design Engineer.

Design Engineer

SURYA FITNESS Feb 2017 - Present, Mumbai, Maharashtra, India

- Currently working as a Design Engineer, contributing to product development and innovation.

Projects

AUTOMATIC WALL PLASTERING MACHINE

- Developed a unique automated plastering machine, ideally suited for the construction and building industry.
- Engineered the machine to make rendering easier, faster, and more effortless compared to manual application.
- Designed the system to work with conventional cement mortar, ensuring a smooth, flat finish.
- Identified and documented the significant future scope and potential impact of the automated plastering technology.

Skills

CAD Software: AutoCAD - SolidWorks - CATIA
