

Huda Ahmed

Senior Mechanical Engineer - Automation & Projects Consultant

huda.ahmed@email.com | +20 101 234 5678 |  github.com/huda-ahmed |  linkedin.com/in/huda-ahmed | hudaahmed.com

Education

Institute of Mechanical Engineering

Diploma in Mechanical Engineering

Mumbai, India

May 1999 – September 2002

ITES

Diploma in Mechanical Engineering Services

Mumbai, India

May 1998 – May 1999

Industrial Training Institute

Technical Training Program

Mumbai, India

May 1993 – May 1995

Experience

Sr. Executive - Mechanical Engineering - Automation & Projects Consultant

On-Site

Egy-Tech Automation Solutions

May 2002 – Present

- **Application Engineering / Pre Sales & Inside Sales:**
- Provided applications support to inside sales personnel and outside sales channels, offering product selection and materials of construction technical recommendations.
- Participated in necessary training activities to establish technical competency & in Field Service trips as directed by Top Management.
- Assisted Brand Managers and/or Product Managers as needed.
- Acted as support for the Projects Quotations team, responsible for the technical part of project quotation including selection, sizing and costing of Pneumatic Automation Products, valves, linear & rotary actuator and field Fabrication & equipment based on customer data sheets and Engineering Drawings.
- Traveled as required to support the field sales channel and to promote Company products and services.
- Performed detailed reviews of customer specifications, providing comments, clarifications and alternatives.
- Sized and selected valves, actuators, and prepared cost effective techno-commercial quotations & solutions as per customers technical requirements.
- Coordinated with other technical departments to minimize technical and cost risk.
- Sent quotations accurately and on-time, including all technical and commercial as per customer documentation requests; Participated in customer negotiation process (commercial & technical).
- Followed up on quotations to close orders & for payment collection.
- Performed PO reviews to ensure all critical elements are correct, escalated discrepancies to Senior Top Management and customer, and obtained PO amendment if required.
- Created order transfer files for submission to the factory in accordance with PO; Supported factory for post-order activities & after-sales service to develop and maintain good customer service.
- **Proposal/Estimation Engineering & Products Costing:**
- Reviewed and received RFQs for company products and solutions.
- Estimated Pneumatic Automation Products & Projects, valves, linear & rotary actuator and field equipment, Piping, Fabricated equipment's etc.
- Plotted enquiries to vendors for critical bought out items and continuously followed up for quotations.
- Applied thumb rule or standard practice of design while estimating for achieving accuracy with less time.
- Analyzed & evaluated estimated cost and actual cost of past manufactured jobs to arrive at realistic cost estimates.
- Maintained databanks of all quotations for ready availability; Coordinated with Instrumentation & electrical departments for costing.
- Handled estimation department while submitting offers on time; Visited sites for site projects, if required; Coordinated with Purchase and process departments; Attended Customer Enquiries meeting; Developed vendors.
- Prepared statement enquiries pending for estimation/under progress.
- Understood client's concerns/pain areas/requirements, offered most suitable & optimized tailor-made or predesigned Chemtronics solutions with techno-commercial proposals that were technically feasible & commercially viable.

- Assigned work to Jr. Proposal executives/Engineers; Guided & Coordinated with design, CAD, sales, marketing, project & commercial department.
- **Engg. Procurement & Purchase, Vendor Development & Supply Chain:**
- Procured Steel/Raw Material & semi-finish Products Based on Projects requirement.
- Achieved continuous improvement in negotiation process & Cost saving opportunities.
- Improved Turn-round time & developed new vendors; Managed Contracts & Tenders.
- Achieved target savings against budget and/or last purchase rates & developed new vendors; Obtained quotation and finalization.
- Researched and evaluated potential vendors and suppliers, requested quotes and performed technical comparisons of prices; Maintained good relationships with vendors and suppliers.
- Examined and reviewed products and supplies to ensure quality & digitized procurement processes.
- Tracked incoming & future purchasing plans, Projects inventory, delivery arrival time, and noted actual arrival time; Organized and updated database of suppliers, delivery times, invoices, and quantity of supplies.
- Collaborated with financial team members on contracts, invoicing, and other financial matters.
- Found suppliers for various materials from product finders as well as from internet sources.
- Created RFQs for materials for projects, departments, for project materials, equipment's and services.
- Reviewed Vendor evaluation & Vendor registration from Supply time & quality of products.

Proposal & Estimation Engineer

On-Site

Duncan Engineering Ltd

Dates Not Specified

- Executed projects, managed vendor development and supply chain, interacted with vendors for timely order action & negotiated with them.
- Worked directly with customers to understand processes and develop optimal solutions; Led proposal engineering team & provided technical support to customers.
- Collaborated with the sales team to professionally represent the company, gather data, and define projects.
- Worked with engineers and designers to develop and quote cost-effective solutions; Performed cost estimation, prepared proposals & quotations based on customer technical specifications; Identified production processes and machine/bought out item requirements; Coordinated with customers to understand exact requirements.
- Identified critical problems & worked out proper solutions within specified time frames.
- Engaged in production design, new manufacturing process development, and new product development; Developed customized manufacturing solutions (Steel, Power & Cement, petrochemical sector).
- Executed cost saving techniques/measures and modifications to achieve substantial reduction in O&M expenditures and work within budget.
- Maintained fruitful relationships with existing customers.

Engineer - Design & Proposal

On-Site

Rotex Engineers & Manufacturing Pvt. Ltd

November 2015 – June 2016

- Managed & enhanced activities related to proposals of pneumatics/fabrication projects & products.
- Executed projects, managed vendor development and supply chain, interacted with vendors for timely order action & negotiated with them.
- Engaged in production design, new manufacturing process development, and new product development; Developed customized manufacturing solutions (Steel, Power & Cement petrochemical sector).
- Prepared technical data sheets as per tender specification.
- Calculated price structures and analyzed cost proposals.
- Monitored progress throughout the job & compared it with the schedule of work.
- Maintained fruitful relationships with existing customers.
- Reviewed Vendor evaluation & Vendor registration from Supply time & quality of products.
- Examined and reviewed products and supplies to ensure quality.

Design & Proposal Engineer

On-Site

Schrader Duncan Ltd

Dates Not Specified

- Executed projects, managed vendor development and supply chain, interacted with vendors for timely order action & negotiated with them.

- Designed or modified Mechanical assemblies, hydraulic/pneumatic assemblies, Fabricated assemblies along with layouts/schematics and/or detailed drawings as per specification.
- Generated electrical or mechanical product specifications, standard operating procedures, maintenance manuals & performed basic mechanical design, if required.
- Participated in growth & developing innovative solutions with design & development, sales & marketing teams.
- Defined, coordinated, performed and generated engineering test reports & engineering analysis.
- In Co-Ordination with production manager implemented and assured that all manufacturing processes were being followed according to process Flow in relevant Departments.
- Maintained records of Non-Conformity (NC) raised during internal audits and closed the same with corrective actions.
- Maintained records of obsolete documents and remained in touch with all HODs.
- Maintained ISO documents pertaining to ISO9001-2015 and brought awareness among employees.
- Coordinated & communicated with channel partners, O.E.M.s, dealers, consultants & end customers for Design & offering technically feasible solutions.
- Carried out internal audit as per audit plan and schedule, maintained the record of controlled drawings.

Fabrication Field Engineer - Hoist & Goods Lifts

On-Site

JOIST- O- MECH Engg. Pvt. Ltd

Dates Not Specified

- Detailed drawings, prepared BOM & performed raw material inspection.
- Managed Prototype manufacturing (3D modeling).

Fabrication Field Engineer

On-Site

MUKAND LTD

Dates Not Specified

- Performed raw material inspection, prepared Gauge for inspection, marked on housing for machining, checked surface finishing.

Skills

Software: Microsoft Word - Microsoft Excel - AutoCAD - MicroStation J - 3D Modeling Software - ERP Systems

Engineering: Application Engineering - Pre-Sales Support - Technical Recommendations - Project Quotation - Sizing & Selection - Cost Estimation - Design - Fabrication - Procurement - Vendor Development - Supply Chain Management - Contract Management - Quality Assurance (ISO9001-2015)

Management: Customer Negotiation - Order Fulfillment - Payment Collection - Supplier Relationship Management - Inventory Tracking - Financial Collaboration
