

Samira Salah

Mechanical Design Engineer

samira.salah@email.com | +20 101 234 5678 |  github.com/samira-salah |  linkedin.com/in/samira-salah | samirasalah.com

Education

Savitribai Phule Pune University

BE Mechanical Engineering

June 2014 - June 2018, Pune, India

Experience

Mechanical Design Engineer

Full-time - On-Site

Push Engineering Pvt Ltd

April 2023 - Present, Cairo, Egypt

- Involved in the design and manufacturing of various ice-making plants.
- Responsible for the design of pressure vessels, condensers, and conveyors using 3D modeling software.
- Managed Bill of Material (BOM) preparation for projects.
- Utilized ERP system for efficient material management.

Research Experience

Research Assistant, R&D Department (Mechanical Workshop)

Full-time

Central Water and Power Research Station (CWPRS)

July 2018 - June 2019, Khadakwasla, Pune, India

- Contributed to projects on laboratory-scale sea wave generation for designing port and harbor structures in India (Mumbai, Chennai, Goa) and internationally (Japan, Bangladesh).
- Gained expertise in wave generation mechanisms, including hydraulic and pneumatic systems, as well as regular wave generators.
- Experienced in sea wave generation using hydraulic systems.
- Assisted in the design of hydraulic systems, including servo actuators, axial piston pumps, and electric motors, under the supervision of 'Scientist B'.

Skills

Software: AutoCAD - CATIA V5 - SolidWorks - Pro/ENGINEER - Microsoft Office

Technical: 3D Modeling - Pressure Vessel Design - Condenser Design - Conveyor Design - Bill of Material (BOM) Preparation - ERP Systems

Soft Skills: Positive Attitude - Quick Learner - Team Leadership

Extracurricular Activities

Treasurer & Event Organizer

2016 - 2018

Mechanical Engineering Student Association (MESA), Savitribai Phule Pune University

- Organized a national-level technical event within the Mechanical Student Association (MESA).
- Served as a Coordinator and Treasurer for the Mechanical Student Association (MESA).
- Participated in a 3D printing workshop held at the college.
- Completed Work Readiness training conducted by NASSCOM Foundation and Global Talent Track.
- Completed Life Skills training conducted by NASSCOM Foundation and Global Talent Track.
