

Mohamed Ahmed

Design Engineer (Mechanical)

mohamed.ahmed@email.com | +20 101 234 5678 |  github.com/mohamed-ahmed |  linkedin.com/in/mohamed-ahmed | mohamedahmed.com

Summary

A hard-working and self-confident individual, adaptable to various work environments, seeking to leverage mechanical design skills in a challenging role.

Education

Alamuri Ratnamala Institute of Engineering & Technology

Bachelor of Engineering (B.E.) in Mechanical Engineering

January 2016, Cairo, Egypt

Mumbai University

Higher Secondary Certificate (H.S.C.)

January 2010, Mumbai, India

Prakash Jr. College of Science & Commerce & S.M.T. Rajdevi Hindi High School

Secondary School Certificate (S.S.C.)

January 2008, Maharashtra, India

Experience

Mechanical Design Engineer

On-Site

Sanarco Engineering Solutions

Feb 2017 - Feb 2018

- Designed and developed mechanical components and systems, contributing to project success within a 1-year tenure.
- Collaborated with engineering teams to ensure designs met specifications and industry standards.

Design Engineer

On-Site

Surya FitTech Egypt

Mar 2018 - Present

- Contribute to the design and development of fitness equipment and related mechanical systems.
- Utilize CAD software to create detailed technical drawings and models.

Projects

Automatic Wall Plastering Machine

- Developed an automated plastering machine, ideally suitable for the construction/building industry.
- Engineered a machine that makes rendering easier, faster, and more effortless compared to manual application.
- Designed the machine to work effectively with conventional cement mortar, producing a smooth, flat finish.
- Identified significant future scope for the automated plastering technology in the construction sector.

Skills

Technical Software: AutoCAD - SolidWorks - CATIA
