Summary

A dedicated and quick-learning final year Mechanical Engineering student seeking to apply strong analytical and technical skills in an industrial setting. Eager to contribute positively with a hardworking and self-confident approach.

Education

Rashtrasant Tukadoji Maharaj Nagpur University

Bachelor of Engineering in Mechanical Engineering

Expected Graduation: May 2024

Nagpur, India

Government Polytechnic, Nagpur

Diploma in Engineering

Graduation: May 2021

Nagpur, India

Experience

Industrial Trainee

METAL FAB High-tech Pvt. Ltd

On-Site

May 2023

- Gained practical exposure to manufacturing processes during a 10-day industrial training program.
- Observed various machinery and operational workflows within the high-tech fabrication environment.

Industrial Trainee

Nagpur Agro Components

On-Site

October 2022

- Completed a 10-day industrial training, observing machine operations, including CNC machinery.
- Familiarized with the assembly line and production processes in an agro components manufacturing facility.

Projects

Design and Fabrication of Pneumatic Punching Machine

Aug 2023 - May 2024

- Designed and fabricated a pneumatic punching machine as a final year Bachelor of Engineering project.

Paddle Operated Sugarcane Juicer Machine

Jan 2021 - May 2021

- Developed a paddle-operated sugarcane juicer machine during Diploma Engineering coursework.

Certificates

MSCIT (Maharashtra State Certificate in Information Technology)

Skills

Software & Tools: AutoCAD, CAD, CNC Programming (Fanuc Series), Automotive CNC

Technical Skills: Automotive Systems, Machine Assembly, Disassembly, Parts Functionality

Personal Strengths: Strong Dedication, Quick Learner, Positive Thinking, Self-Confidence, Hardworking

Languages

English: Fluent

Hindi: Native

Marathi: Native

Extracurricular Activities

Participant

2017 - 2018

JSW Urja Project Competition

- Participated in the JSW Urja Project Competition, contributing to a team project.

Workshop Attendee

October 2022

University Workshop

- Completed a 1-week workshop focusing on machine assembly, disassembly, and functioning of parts.
