Education

Anna University

B.E. in Civil Engineering

CGPA: N/A

Chennai, Tamil Nadu, India

Experience

QA/QC Civil Engineer

Full-time

Gulf Asia Contracting Co LLC

2019 - Present

- Organized, implemented, conducted, and managed QA/QC Programs as per the Company's Quality Policy.
- Coordinated document controls for technical submittals, drawings, etc., ensuring QA/QC validation, issue, amendments, and recall of controlled documents.
- Coordinated all inspections, monitored required tests, and recorded inspections and tests as per the Contract Plan and Contract Specifications.
- Liaised with the Client's representatives for day-to-day quality-related project activities.
- Coordinated with the Project Manager regarding work performance and held authority to stop work in areas with uncorrected discrepancies, cancelling stop work orders upon satisfactory correction.
- Provided technical support to the Project Manager and guidance to site staff in submission of materials for approval, request for inspection, shop drawings, As-built drawings, and O & M manual.
- Assisted QA/QC Manager in conducting internal quality audits.
- Ensured Non-Conformance Reports (NCR) were raised once activities deviated from Contract Specifications or normal construction industry practices.
- Coordinated with project staff to compile and maintain pertinent records of inspection and testing until the end of the contract and for retention on project completion.
- Attended Monthly Project Review Meetings (PRM) and alerted the project team of any potential problems.

QA/QC Civil Engineer

Full-time

Ray Engineering Limited

March 2016 - 2019

- Carried out all site inspections via official Inspection and Test Request (ITR) submitted by the Contractor.
- Developed method statements for activities, including risk assessment, job safety environmental analysis, Inspection Test Plan, and Checklists based on project specifications.
- Managed QA/QC documents for the entire project, including certificates, calibration, test results, inspection requests, non-compliance reports, site instruction/observations, permanent materials delivered, and other QA/QC documents.
- Supervised, checked, and ensured construction adherence to the final issued for construction drawings and project specifications.
- Conducted joint inspections with consultants and clients.
- Monitored and controlled the status of punch lists and exception lists relevant to quality dossiers.

QA/QC Civil Engineer

Full-time

Ray Engineering Limited

2015 - March 2016

- Managed QA/QC documents for the entire project, including certificates, calibration, test results, inspection requests, non-compliance reports, site instruction/observations, permanent materials delivered, and other QA/QC documents. Responsible for closure of Non-conformance and Site Instructions.
- Maintained management system standards of safety and complied with Company's Health, Safety and Environment requirements.
- Performed all daily inspections and tests necessary to achieve the quality of construction required in the drawings and specifications for all works under the contract performed on or off site.
- Carried out inspection and checking for all quality-related procedures at the site, ensuring activities were as per approved method statement and inspection test plan.

- Coordinated with the consultant's representative and Site In-charge for inspection and meetings about quality problems, including closure of Non-Compliance Reports.

Site Engineer

Full-time

High View Builders

2014 - 2015

- Ensured understanding and application of all responsibilities with regard to company's environment, Health, Safety, Security, and quality standard.
- Ensured required materials and PPE's were available to carry out the job smoothly and safely in advance.
- Proactively involved in supporting the project engineer throughout the duration of the project.
- Maintained accurately detailed daily site reports for site conditions, progress, and resources available to undertake activities throughout each phase of the project.
- Coordinated with sub-contractors and suppliers at site.
- Coordinated with employees for the timely completion of the work at site.
- Deployed workers at the site as per the schedule and maintained labor cards.
- Conducted weekly meetings with the project engineer to discuss work progress.

Projects
