Education

Excellence Polytechnic College

Civil Engineer Diploma, Rajasthan Board

Year Unknown, India

Experience

Civil Engineer

On-Site

NOVA ENGINEERING WORKS

May 2018 - Present, Sharjah, UAE

- Managed and executed diverse construction activities, including excavation, foundation, PCC, waterproofing, RCC, shuttering, steel fixing, concrete casting, masonry, brickworks, plastering, and tile fixing.
- Collaborated with design engineers, architects, and structural teams to incorporate updated drawings and minor site-specific changes.
- Conducted thorough inspections prior to casting columns and slabs to ensure adherence to quality standards.
- Oversaw all construction activities, processed material requisitions, and facilitated the arrangement and procurement of construction materials.
- Executed civil, interior, and exterior ground finish works, ensuring comprehensive site supervision.
- Developed and managed detailed work schedules to optimize project timelines and resource allocation.
- Prepared and verified sub-contractors' and suppliers' bills, ensuring accuracy and compliance.
- Worked out and verified quantities with client's engineers, maintaining transparent project costing.

Senior Civil Engineer

On-Site

OM CONSTRUCTION

January 2017 - April 2018, Mumbai, India

- Served as Senior Engineer for the "9 RADHA" project, managing on-site civil engineering operations.
- Supervised construction teams and ensured project execution aligned with design specifications and timelines.
- Contributed to the successful completion of project phases through effective site management and coordination.

Site In-charge

On-Site

Andheri Civil Contractors

May 2015 - December 2016, Mumbai, India

- Managed and supervised civil construction site operations in the Andheri (E) Marol Bus Depot area, ensuring project efficiency.
- Oversaw material handling, labor management, and ensured compliance with safety standards.
- Coordinated daily site activities to maintain project momentum and achieve construction milestones.

Civil Engineer / Site Engineer

On-Site

ALIA CONSTRUCTION

June 2014 - May 2015, Mumbai, India

- Worked as Civil Engineer and Site Engineer on the "YASHWANT ORICHIDS" project.
- Assisted in the planning, execution, and supervision of various construction tasks.
- Ensured adherence to engineering drawings, specifications, and quality control procedures on site.

Projects

LODHA ETERNIS & ESTADO Projects

Dates Unknown

Contributed to the execution and supervision of significant construction projects, LODHA ETERNIS and ESTADO.

- Involved in various project phases, applying civil engineering principles to ensure structural integrity and quality.

Skills

Software & Tools: AutoCAD, MS Office Applications, Windows (9x/2000/XP/Vista)

Civil Engineering: Excavation, Foundation, PCC, Waterproofing, RCC, Shuttering, Steel Fixing, Concrete Casting, Masonry, Plastering, Tile Fixing, Site Supervision, Material Procurement, Quantity Surveying, Billing, Project Scheduling

Soft Skills: Excellent Communication, Hardworking, Sincerity, Honesty, Individual & Team Working Capability, Knowledge of 5M (Minutes, Manpower, Material, Machine, Management), Program Strategy Management
