Education

Universal University Nashik

Master of Science in Structural Engineering

Jan 2017, Nashik, Maharashtra, India

Experience

Civil Engineer

Full-time - On-Site

Color Sky Decor LLC

Dates Not Specified, Dubai, UAE

- Managed exterior and interior finishing for diverse building types including residential and commercial structures.
- Oversaw the construction of new buildings and villas from conceptualization to completion.
- Prepared comprehensive bills of quantities and developed detailed project schedules.
- Conducted maintenance and interior outfitting for apartments, showrooms, villas, and hotels.
- Analyzed project documentation (photographs, drawings, maps) to inform project direction and budget constraints.
- Ensured project feasibility through continuous evaluation of structural integrity and design practicality.
- Developed and managed comprehensive project completion schedules.
- Performed and adjusted quantity calculations for practical and budgetary accuracy.
- Facilitated clear communication with team members, clients, and vendors to ensure project cohesion and fluidity.
- Forecasted design and construction timeframes for various projects.
- Conducted site inspections to ensure compliance with relevant codes and proper project progression.

Civil Engineer

Full-time - On-Site

Girija Construction And Developers

Dates Not Specified, Nashik, Maharashtra, India

- Contributed to various civil engineering projects focusing on construction and development.

Civil Site Engineer

Full-time - On-Site

Grandeurs Realtors India

Dates Not Specified, India

- Evaluated overall costs of materials, labor, subcontractors, and tools.
- Regulated subcontractor work schedules and equipment deliveries to maintain project timelines.
- Provided necessary documentation for owners and subcontractors.
- Monitored project progress and development on a regular basis.
- Acted as the main technical advisor on construction sites for subcontractors, craftspeople, and operatives.
- Ensured all materials used and work performed adhered strictly to specifications.
- Liaised effectively with consultants, subcontractors, supervisors, planners, quantity surveyors, and the general work-force.

Civil Engineer

Full-time - On-Site

Sonia Buildcon

2015 - 2016, India

- Managed construction, renovation, and interior design projects for buildings, malls, commercial complexes, and villas.
- Conducted technical and feasibility studies, including thorough site investigations.
- Utilized various computer software for developing detailed designs.
- Performed complex engineering calculations for structural integrity and design.
- Coordinated with clients and a diverse range of professionals, including architects and subcontractors.
- Compiled job specifications and supervised tendering procedures.
- Resolved design and development problems efficiently.
- Managed budgets and project resources effectively.
- Scheduled material and equipment purchases and deliveries.
- Ensured project compliance with legal requirements, particularly health and safety standards.

- Assessed the sustainability and environmental impact of projects.
- Guaranteed projects ran smoothly and structures were completed within budget and on time.

Industrial Trainee

Larsen & Toubro (L&T)

Training - On-Site
Dates Not Specified, India

- Completed 3 months of intensive industrial training.

Implant Trainee

Ashoka Buildcon

Training - On-Site
Dates Not Specified, India

- Received specialized training for infrastructure setup and maintenance.

Projects

Diverse Building & Infrastructure Projects

Dates Not Specified

- Managed exterior and interior outfitting for a range of buildings, villas, and commercial spaces.
- Oversaw construction of new buildings and villas from conceptualization to completion.
- Prepared comprehensive bill of quantities and developed detailed project schedules.
- Executed maintenance and interior outfit works for apartments, showrooms, villas, and hotels.

Skills

Software: AutoCAD, Pro/ENGINEER, CATIA, MS Word, MS Excel, Adobe Photoshop

Construction Management: Site Supervision, Project Scheduling, Bill of Quantities (BoQ), Budget Management, Material Procurement, Subcontractor Management, Health & Safety, Feasibility Studies, Quality Control, Structural Integrity Evaluation

Technical Skills: Detailed Design, Technical Drawings, Engineering Calculations, Site Investigation, Renovation, Interior Design
