Experience

QA/QC Civil Engineer

On-Site

Gulf Asia Contracting Co LLC

March 2016 – Present

- Managed QA/QC Programs for the Dh600-million Geepas Tower (2B + G + 19 + Roof Building) in Dubai, UAE, recognized for a Guinness World Record in continuous concrete pouring.
- Coordinated document controls for technical submittals and drawings, ensuring QA/QC validation, issue, amendments, and recall of controlled documents.
- Liaised with Client's representatives (Geepas International Ltd, UAE) for day-to-day quality-related project activities and conducted all necessary inspections and tests per contract specifications.
- Provided technical support to the Project Manager and guidance to site staff for material approvals, inspection requests, shop drawings, As-built drawings, and O & M manuals.
- Ensured Non-Conformance Reports (NCR) were raised for activities deviating from Contract Specifications and maintained pertinent inspection and testing records.
- Attended Monthly Project Review Meetings (PRM), alerting the project team to potential problems, and held authority to stop work for uncorrected discrepancies.

QA/QC - Civil Engineer

On-Site

Ray Engineering Limited

Client: Petronet LNG Limits, Dahej, Gujarat, India

March 2014 – Feb 2016

- Managed QA/QC documents for a USD 400 million Petronet LNG plant expansion project, including certificates, calibration, test results, inspection requests, non-compliance reports, and site instructions.
- Responsible for the closure of Non-conformance and Site Instructions, while ensuring compliance with Company's Health, Safety, and Environment requirements.
- Performed daily inspections and tests to achieve the required construction quality as per drawings and specifications for all on or off-site works.
- Carried out inspections and checks for all quality-related procedures on site, ensuring activities adhered to approved method statements and Inspection Test Plans.
- Coordinated with the consultant's representative (Toyo Engineering India Limits) and Site In-charge for inspections and meetings about quality problems, including closure of Non-Compliance Reports.

QA/QC Civil Engineer

On-Site

Ray Engineering Limited

Client: Glaxo Smith Kline (GSK), Nashik, India

March 2012 – Feb 2014

- Carried out all site inspections via official Inspection and Test Request (ITR) submitted by the Contractor through proper channels.
- Developed method statements for activities, including risk assessment, job safety environmental analysis, Inspection Test Plan (ITP), and Checklists based on project specifications.
- Managed QA/QC documents for a USD 150 million GSK building project, including certificates, calibration, test results, inspection requests, non-compliance reports, and site instructions.
- Supervised, checked, and assured that construction adhered to the final issued for construction drawings and project specifications.
- Conducted joint inspections with consultant (Jacobs Engineering India Limits) and client, monitoring and controlling the status of punch lists and exception lists.

Civil Engineer

High View Builders
Kerala, India

On-Site

Aug 2011 – Feb 2012

- Ensured understanding and application of all responsibilities regarding company's environment, Health, Safety, Security, and quality standards for G + 8 Floor building projects.
- Ensured required materials and Personal Protective Equipment (PPE's) were available in advance to carry out jobs smoothly and safely.
- Proactively supported the project engineer throughout the project duration, maintaining accurately detailed daily site reports for conditions, progress, and resources.
- Coordinated with sub-contractors, suppliers, and employees at site for timely completion of work, deploying workers as per schedule and maintaining labor cards.
- Conducted weekly meetings with the project engineer to discuss work progress and resolve on-site issues.
