Education

B.E. Computer Science and Engineering

January 2013 – January 2017

RTMNU University, Jhulelal Institute of Technology

Nagpur, India

HSC - Maharashtra State Board, Dayanand Arya Kanya Junior College, Nagpur, India (January 2011 – January 2013)

SSC - Maharashtra State Board, Nagpur, India (January 2010 – January 2011)

Experience

Java Developer

On-Site

Inouvelle Ventures Private Limited

December 2017 – Present

- Developed and maintained full-stack applications for stock management and printing press systems.
- Utilized J2EE, Spring, Hibernate, Angular, and PostgreSQL for robust backend and frontend development.
- Performed manual testing to ensure application functionality and user satisfaction across various projects.

Projects

Stock Management System

December 2017 – Present

- Developed a comprehensive stock management system for the medicinal market using Angular, J2EE, Spring, Hibernate, and PostgreSQL.
- Implemented features to track medicines, surgical equipment, wholesalers, retailers, employees, and customers, streamlining inventory control.
- Responsible for backend development and database integration, ensuring system efficiency and data integrity.

Printing Press Management System

Associated with Inouvelle Ventures

- Designed and implemented a web-based Printing Press Management System for an established client, leveraging Angular, J2EE, Spring, Hibernate, and PostgreSQL.
- Enhanced organizational growth, efficiency, and profitability by automating key management processes and offering robust services.
- Contributed as a Java Developer and performed manual testing to ensure system quality and user satisfaction.

Skills

Programming Languages: C - C++ - Java (J2EE, Spring, Hibernate) - Angular

Databases: MySQL - PostgreSQL

Operating Systems: Windows - Linux

Testing: Functional Testing - Manual Testing

Tools & Frameworks: MS-Office
