Education

Sawitribai Phule Pune University

B.E. Information Technology

Jan 2016, Pune, India

Experience

Java Developer

Full-time

Vertical Software

Sept 2021 - Aug 2023

- Designed and developed web applications using J2EE, Servlets, JSP, JavaScript, HTML, CSS, jQuery, AJAX, and JSON.
- Utilized MVC architecture for robust application development.
- Engaged in Software Development Life Cycle phases including requirement gathering, analysis, design, development, and unit testing.

Projects

Expense Ledger

- Developed a comprehensive Expense Ledger application utilizing Java, JSP, Servlets, and MySQL for robust backend operations, integrated with JavaScript, JSON, jQuery, and AJAX for dynamic frontend functionalities.

Trimurti Developer (Realestate)

- Contributed as a Java Developer to the Trimurti Developer (Realestate) project, implementing features with Java, JSP, Servlets, and MySQL, alongside modern web technologies like JavaScript, JSON, jQuery, and AJAX.

Vimay Enterprise

- Engineered features for Vimay Enterprise, leveraging Java, JSP, Spring, Hibernate, and Maven for efficient backend development, complemented by jQuery and AJAX for interactive user interfaces.

Skills

Languages & Frameworks: Java, J2EE, Spring, Hibernate

Web Technologies & Scripting: JSP, Servlets, JDBC, JavaScript, jQuery, Ajax, JSON, HTML, CSS

Databases: MongoDB, MySQL

Application Servers: TomCat

IDEs & Tools: Eclipse, Maven

Methodologies: MVC Architecture, Software Development Life Cycle (SDLC)
