Summary

To obtain a position in the field of civil engineering technician where I can apply and impart the knowledge I have gained through experience and college, as well as to acquire new insight through experience and application.

Education

University of Northern Iowa

BS: Construction Management

May 2004, Cairo, Egypt

Hawkeye Community College

AAS: Civil and Construction Engineering Technology

May 1998, Alexandria, Egypt

Experience

Engineering Technician

Full-time

Vodafone Egypt

August 2007 - Current

- Design/Drafting - Design of various capital improvement projects including reconstruction, patching, HMA resurfacing, sewer lining/repair, durable pavement markings, and sidewalk repair. Drafting software used Microstation and GeoPak.
- Storm Water Utility Assessment - Review of development within the city to determine the assessment fee based on the amount of impervious area on the site. Software used ArcView and Microsoft Access.
- Surveying - Surveying duties include TOPO graphic surveys for capital improvement projects and survey of city infrastructure and utilities to provide accurate base map drawings. Surveying equipment used Trimble GPS and Topcon Total Station.
- File Maintenance - Maintain accurate base map drawings of subdivisions, right of way parcels, easements, storm sewer, sanitary sewer, fiber optic, and street centerlines. Software used ArcView and CrateGraph.

Senior Engineering Technician

Full-time

CIB Bank

April 2006 - August 2007

- Surveying duties included TOPO graphic surveys, land surveys, and construction surveys. Surveying equipment used Ashtec GPS and Trimble 5600 Total Station.
- Construction Inspection - Projects I overseen included asphalt resurfacing, street reconstruction, curb reconstruction, storm sewer and sanitary sewer reconstruction and repairs, construction of new subdivisions, and drainage way construction.
- Design/Drafting - Design of a street reconstruction project that included street widening, storm sewer reconstruction, sanitary sewer reconstruction, and water main reconstruction. Drafting software used AutoCad and Eagle Point.

Engineering Technician

Full-time

Orange Egypt

May 1998 - April 2006

- Surveying - Over 7 years of surveying experience including land surveys, TOPO graphic surveys, and construction surveys. Surveying equipment used Trimble GPS and Geodimeter total station.
- Environmental Sampling - Over 6 years of sampling at 7 different sites.
- Construction Inspection - Over 3 years of construction inspection experience including bridge, bike trail, street, and airport runway, both asphalt and concrete.
- Stream Gauging - Over 2 years of stream gauging on 4 different river basins, including the Iowa, Des Moines, Raccoon, and Cedar rivers.
- Drafting - Over 2 years of drafting experience including assisting a lead drafts person on street improvement projects, plat of surveys, and corner certificate drawings. Drafting software used Microstation.

Projects

Home Improvement Projects

-

Certificates

Skills

Software: ArcView - AutoCad - Microstation - Microsoft Access - GeoPak - Eagle Point - CrateGraph

Technical: Drafting - GPS - Surveying - Inspection - File Maintenance - Repairs - Utilities - Environmental Sampling - Stream Gauging

Other: Supervision - Graphic

Extracurricular Activities

Outdoor Sports

- Golfing, hunting, and fishing.
