Education

Master of Engineering Information Technology

M.I.T January 2013, Pune, Maharashtra

Bachelor of Engineering Information Technology

Amravati University January 2005, Pusad, Maharashtra

Junior College

P. N. Junior College January 2001, Pusad, Maharashtra

S.S.C.

K.D. High-School January 1999, Pusad, Maharashtra

Relevant Courses

NIIT (2015-2016): Android - Mobile App Development, Technologies in Java - Core Java, Advance Java, JSF, Hibernate, Spring.

Experience

Java Developer

Infrasoft Technologies Jan 2018 - Present, Mumbai, India Full-time

- Currently working as a Java Developer.
- Responsible for MIS Generation for Tata Sky and Tata Power.

Java Developer

Maxgen Technologies Jan 2016 - Dec 2017, Pune, India Full-time

- Developed and maintained Java-based applications for clients.
- Contributed to various software development lifecycle phases.

Projects

Location Detector of Computing and Mobile Devices

- Developed an Android application to detect and track the location of computing and mobile devices. Android

Data Deduplication

- Designed and implemented a data deduplication system in Java to reduce redundant data and optimize memory usage. Java
- Stored unique copies of data and used pointers to allow multiple locations to access the same data efficiently.

Publications

A secure cipher index over encrypted character data in database., Ashraf Ibrahim, Pimpri Chinchwad College of Engineering, Pune, April 2011

Skills

Programming Languages: C, C++, Java, Android

Databases: MS Access, SQL, Oracle

Java Technologies: Core Java, Advance Java, JSF, Hibernate, Spring

Concepts & Methodologies: Object Oriented Programming (OOP/C++), Database Management, Programming and Problem Solving (PPS), Advanced Database (AD), Information Assurance and Security (IAS)

Extracurricular Activities

Lecturer / Teaching Assistant

Jan 2013 - Dec 2015

Example University, Pune, India

- Taught academic subjects including C language, Core Java, and Object Oriented Programming (OOP/C++).
- Instructed students on Database concepts, Programming and Problem Solving (PPS), Advanced Database (AD), Information Assurance and Security (IAS), and Android development.
