Education

Master of Engineering, Information Technology

M.I.T

CGPA: N/A

January 2013 - Pune, Maharashtra

Bachelor of Engineering, Information Technology

Amravati University

CGPA: N/A

January 2005 - Pusad, Maharashtra

P. N. Junior College

January 2001 - Pusad, Maharashtra

S.S.C

January 1999 - Pusad, Maharashtra

K.D. High-School

Experience

Java Developer

Maxgen Technologies

Full-time

Date - Present

- Currently working in Infrasoftware Technologies, Andheri as a Java Developer.
- MIS Generation of Tata Sky and Tata Power

Projects

Location Detector of Computing and Mobile Devices

(Android Project)

Date - Date

Data Deduplication

(Java)ME Project: My projects works to reduce redundant data from the system and free up the memory. It stores unique copy of data and for more location with same data with the help of pointers can access the data.

Date - Date

Certificates

Android -Mobile App Development - 2015-16

Technologies in Java-Core Java, Advance Java, JSF, Hibernate, Spring - 2015-16

Skills

Programming: C - C++ - Java - Android

Database: MS Access - SQL - Oracle

Subjects Taught: C language - Core Java - Object Oriented Programming (OOT/C++) - Database - PPS (Programming and problem solving) - AD (Advance Database) - IAS (Information Assurance and security) - Android

Publications

A secure cipher index over encrypted character data in database., National Conference at Pimpri chinchwad college of engineering, Pune, 28-29 April 2011

Extracurricular Activities

Paper Presentation

28-29 April 2011

Pimpri chinchwad college of engineering, Pune

- Presented a paper on "A secure cipher index over encrypted character data in database."
