

Eman Zaki

Automation and Electrical Engineer

eman.zaki@email.com | +20 123 456 7890 |  github.com/eman-zaki |  linkedin.com/in/eman-zaki | emanzaki.com

Education

Mumbai University

CGPA: N/A

Bachelor of Electronics Engineering

January 2011 - January 2016, Mumbai, Maharashtra

Experience

Automation and Electrical Engineer

Full-time

SMEC Automation PVT. LTD

Date - Date

- Supply, installation, testing and commissioning of water level sensor and valve actuators for water tanks at BARC hospital Anushaktinagar, Trombay and BARC facility at Kalyan.
- Implemented of academy projects like Automatically tank filling with relay and float sensor level control, bottle filling on conveyor belt motion, and waste material crashing then separated on conveyor belt motion with PLC controlling.

Automation and Instrumentation Engineer (Marine and Industrial Automation)

Full-time

SMEC Automation PVT. LTD

Date - Date

- Re-calibration of field Instruments like control valve actuators, sensors and transmitters for pneumatic and electrical.
- Research and developing on new automated system.
- Level, flow and temperature process control with PID of various brands (Nippon, Selec etc.)
- PLC panel wiring, DOL and Star delta control wiring of 3 phase induction motor.
- Panel testing IP knowledge.
- Control Panel quality check and assurance.
- Electrical Single Line Diagram (SLD) and power wiring diagram.

Projects

Instrumentation and Calibrations Internship

June 8, 2016 - November 30, 2016

SMEC Automation PVT. LTD. of Instrumentation and Calibrations in SMEC Automation Pvt. Ltd. for 6 months duration.

Certificates

Post Graduate Diploma in Industrial Calibration and Instrumentation - 3 months

Post Graduate Diploma in Industrial Automation - 3 months

TUV Rheinland Certified Qualification (Post Graduation Diploma in Industrial Automation and Post Graduation Diploma in Industrial Instrumentation) - 07-11-2016

Skills

Technical Skills: Calculation and selection of cable, switchgear and protection - PLC Hardware (AB, Schneider, Siemens, Omron, Delta, ABB and GE-Fanuc) - Control relay logic and ladder logic

SCADA/HMI Skills: Designing and interfacing PLC with SCADA (Intouch, Vijeo-Citect, WinCC, iFix and Factory TalkView) - Real time data acquisition from OPC (Kepware), HMI & interfacing

Instrumentation Calibration: Handling VFD for motor control (Schneider-Electric ALTIVAR 28 Series) - Calibration of Pressure gauge, Temperature gauge, Control Valve, Level or Flow measurements and control, Druck Injector, Smart DP transmitter using HART COMMUNICATOR - Piping and Instrumentation Diagram, Hand Tools, Tubes and Pipe fitting, Cable and Cable Glanding - Basic knowledge of "HONEYWELL DCS C-300" and its programming

Software Skills: Electrical designing software: basic AutoCAD and EPLAN - PLC Software: Rockwell, Twido-suite, Step7-Microwin SP2, Unity Pro XL, CX-Programmer, WPL Software, Codesys and Versa Pro - Designing software: Wonderware, CitectScada7.4, Proficy HMI SCADA/iFIX and FactotyTalk View

Programming Languages: C - C++ - JAVA - Python

Extracurricular Activities

Robotics Workshop

Date

Atharva College of Engineering

- Completed 5 days Robotic workshop (KUKA KR 16).

Training

Date

RK Electricals

- Training of 2 weeks at RK Electricals.
