

Mahmoud Abdel Rahman

QA Automation Lead

mahmoud.abdelrahman@email.com | +20 122 XXX XXXX |  github.com/mahmoud-abdel-rahman |  linkedin.com/in/mahmoud-abdel-rahman | mahmoudabdelrahman.com

Education

Mumbai University

Bachelor of Science in Computer Science

Mumbai, Maharashtra

Experience

QA Automation Lead

Egy-Tech Solutions

- Test Rockwell Automation embedded systems such as Logix Designer, Factory Talk, RSLinx Classic, Control Flash, Compare Tool, I/O modules and Profiles.
- Coordinate with Onsite and Offshore QA leads to design and develop test strategy and test plan.
- Document test plan and test cases base on product Requirement Document and functional specification. Discussed and explained the requirement to QA team.
- Work in Scrum base Agile Methodology and Test Driven development environment with frequent changing requirements and lots of challenges.
- Document and Published Program Increment Objectives, Program Increment planning report, Feature Epics, Backlog and Stories.
- Conduct and Participated in Program Increment Planning, Backlog Grooming, Sprint Planning, Daily Stand Ups, Sprint Review and Retrospective.
- Perform Automation testing tasks such as Design, Create, Maintain, Execute and peer review test scripts using Test Automation Framework(TAF)
- Develop and Execute System integration and GUI integration test using C++.
- Interact with Business Analysts and Software Developers for bug review and participated in QA meetings.
- Work closely with development and engineering department to ensure proper resolution of bugs.
- Proactively came up with innovative methods to improve software quality, test coverage, efficiency and regression coverage.
- Created and Maintained testing documents such as High Level Requirement, Test strategy report, Test plan, Test cases, Test execution results, Bug report, Quality Metrics, Traceability Matrix and Testing Summary Reports.
- Environment: Logix Designer, Factory Talk, RSLinx Classic, ControlFlash, CompareTool, I/O modules, Profiles, Test Automation Framework(TAF), C++, Python, Selenium, Clear Case, Clear Quest, UFT, Collaborative Lifecycle Management, and Version-one.

GE-Healthcare

- Validated GE CT scanners based on FDA compliances and regulations.
- Interacted with Clinical experts, Business Analysts and Development architect for creation of test strategy and test plan.
- Coordinated with the Offshore QA and Onsite QA team to work on design and develop of test strategies and requirement traceability matrix.
- Designed, Created and executed manual test cases base on product requirement documents.
- Increased productivity by initiating use of automation tools like DICOM and QTP.
- Trained and guided GE team on automation test creation and execution using QTP.
- Performed testing types such as functional, integration, performance and regression and Provide test reports to management.
- Involved in release support, test bed creation & testing throughout release process.
- Environment: Agile, Test-driven development (TDD), DICOM, HL7, Image reconstruction, Windows, Linux, SQL, C, Python, QTP, HTML, XML, QTP, VBScripts and QC

Patni-GE-Healthcare PACS

- Validated GE PACS application and tested web application defined for Administration, Authentication and Archiving of DICOM images.
- Involved in the creation of Automation framework by using Hybrid and BPT approach.
- Responsible for creation of Test Bed and Golden Data using DCMTK.
- Prepared the Test Scenarios, Test plan, Test cases and Automation Scripts for Integration, System and End-to-End testing on all applications.
- Designed and developed User defined and Generic functions with well-versed VB scripting.
- Descriptive programming in scripting dynamic objects and reusable actions in defining scenario flows in UFT/QTP.
- Reviewed the QTP Scripts developed by the team members.
- Supported the QA/SIT and Regression testing team for environmental issues and Interact with other downstream environment system team for the clarifications.
- Environment: Agile, Test-driven development (TDD), GE PACS, DICOM, HL7, Image reconstruction, Image Construction, Windows, Linux, SQL, C, Python, Selenium, QTP, HTML, XML, QTP, JavaScript, VBScripts and QC

CIB Bank

- Reviewed Business requirements, design documents and prepared test cases for assigned project releases.
- Performed testing types such as API, functional, integration, System, performance, regression, security and network. Provide test reports to management.
- Involved in integration testing for release of new functionality.
- Testing critical bug's fixes and co-ordinate with developer in fixing these critical bugs.
- Involved in backend database testing in oracle and Microsoft SQL.
- Involved in release support, test bed setup & testing throughout release process.
- Automation of test flow's using automated tools QTP 10.
- Environment: Windows, Linux, SQL, C, Python, QTP, HTML, XML, QTP, JavaScript, VBScripts and QC

Orange Egypt

- Referred Business requirements documents, Use case documents and Design documents provided by client and developer for creation of Manual and Automation test cases.
- Involved in Analysis, Design, Creation, Execution and Debugging of automation scripts using automation tools like Rational Robot, QTP and Shell scripting.
- Testing critical bug's fixes and co-ordinate with developer in fixing these critical bugs.
- Involved in Installation of build, Maintaining test bed, Smoke and Sanitary testing, Regression testing, Performance testing and Database testing using Rational Robot, QTP and Shell scripting.
- Environment: Windows, Linux, SQL, Rational Robot V2002 and QTP V 9.2.

Skills

Agile Methodology: Scrum - Kanban - Extreme Programming(XP) - Test-driven development (TDD) - Feature Driven development(FDD)

Domain: Industrial Automation - Retail - Banking - Insurance - Health care

Automation Framework: Modular - Data driven - BPT - Hybrid

Test automation tool: HP UFT - TAF - Load Runner - Selenium - Rational Robot - DCMTK - sikuli

Languages: VB Script - C++ - Python - Shell Script

Bug Tracking Tool: Bugzilla - Jira - HP Quality Control - AP Test - Clear Quest

Version management: Clear case - Win CVS - SVN

Database: Oracle - SQL server - MySQL

Network Protocols: TCP/IP - HTTP - HTTPS - VPN - FTP - LDAP

Healthcare: DICOM - PACS - HL7 - Image Archiving - Image reconstruction

Rockwell Automation: Logix Designer - Factory Talk - RSLinx Classic - Control Flash - Compare Tool - I/O modules and Profiles
