

Adel Gamal

Python Developer

adel.gamal@email.com | +20 101 234 5678 |  github.com/adel-gamal |  linkedin.com/in/adel-gamal

Education

Ain Shams University

Bachelor of Engineering (B.E.)

Cairo, Egypt

Sep 2016 - Jun 2020

Experience

Python Developer

Full-time

Egy-Tech Solutions

Jul 2020 - Present

- Worked on the Frequency Monitoring and Analysis System (F-MAS) project for managing network inventory, network communication, fault management & network traffic analysis.
- Participated in the entire lifecycle of projects including Design, Development, Deployment, Testing, Implementation, and support.
- Developed views and templates with Python and Django's view controller and templating language to create a user-friendly website interface.
- Implemented navigation rules for the application and page outcomes; wrote controllers using annotations.
- Created the project using Django, Django REST API, MySQL, PyMySQL, Python, HTML5, and CSS3.
- Created CRUD methods (GET, POST, PUT, DELETE) to make requests to the API server and tested the RESTful API using Postman.
- Created unit test cases for unit testing.
- Worked with JSON-based REST Web services.
- Wrote Python routines using modules such as 'requests' and 'urllib' for web crawling, logging into websites and fetching data.
- Added navigations, paginations, and column filtering to the user interface.
- Created a Git repository and managed the project on GitHub.
- Utilized Agile processes and JIRA for issue management to track sprint cycles.
- Environment: Python, Django, MySQL, HTML, CSS, SQLAlchemy, JSON, Agile, Web Services (REST), Urllib.

Skills

Programming Languages: Python

Frameworks & Libraries: Django, Django REST Framework (DRF), SQLAlchemy

Databases: MySQL, Oracle, SQLite, MongoDB

Web Technologies: HTML, CSS, RESTful Web Services, JSON

Tools & Methodologies: Git, GitHub, Jira, Agile, Scrum

Operating Systems: Windows, Unix
