Experience

Project Manager (Global Test Manager)

HSBC Software India Pvt. Ltd.

Full-time

Pune, India

- Acting as Global Test Manager, steering a team of 25+ resources across the globe in India, China, Malaysia, and Poland.
- Spearheading the entire test delivery of large programs under the banking domain, leading teams from functional (Regression, Integration) & shared services (Security, Performance, Accessibility, Automation) groups.
- Defining and devising "HSBC Core Banking" IT Transformation strategies from solution to execution level.
- Experienced in specialized testing methods: API, Conversion, Cloud, Digital UI, Infrastructure, Exploratory, and Accessibility Testing.
- Experienced in planning OAT and non-functional testing like performance and volume testing for core banking systems.
- Coordinating with regional business and testing teams to map their testing approach and ensure successful end-to-end releases.
- Led the technical implementation of the in-house "Test Automation" framework (X-framework) on AS400 (iSeries) systems.
- Managing the implementation of Test Automation to enable DevOps via tools like Cucumber & Selenium (BDD), UFT, and Tosca.
- Leading CI/CD implementation by executing automated scripts from Jenkins.
- Managing Test Data Management (TDM) using CA TDM and internal HSBC tools.
- Handling resource forecasting, effort estimation, and the resource onboarding process in coordination with vendor partners.
- Overseeing people management tasks including monthly 1:1 meetings with leads, performance reviews, and conflict resolution.
