Education

JNTU

Masters of Science in Information Technology

Hyderabad, Telangana

June 2015 - June 2017

Experience

DevOps Engineer

Full-time

Nendrasys Technologies Pvt Ltd

July 2017 - Present

- Creating fully automated CI build and deployment infrastructure and processes for multiple projects.
- Developing scripts for build, deployment, maintenance and related tasks using Jenkins, Ant, Maven, and Shell.
- Installing, configuring and maintaining Continuous Integration, Automation and Configuration Management tools like Jenkins and Ansible.
- Automating compilation, packaging, and deployment of WAR, EAR and JAR files for multiple applications across various platforms.
- Administering version control systems including GIT and Bitbucket, managing repositories, branches, user permissions, and resolving merge conflicts.
- Deploying and maintaining code and applications across different environments, from DEV to PROD.
- Working closely with Architecture, Development, Test, Security and IT Services teams to identify and mitigate potential risks associated with releases.
- Implemented a Master-Slave architecture setup for Jenkins to improve performance and scalability.
- Created and maintained documentation of build and release processes and application configurations.

Projects

Sloan Global Holdings (Sloan) - E-commerce

July 2017 - Present

- The scope of the project was to design and develop B2B e-commerce product features for the Sloan project. The platform allows customers to buy fixers, sinks, and related products, focusing on online sales, distribution, and marketing of products.

Bangkok Bank Limited (BBL) Thaitrade - Commercial, E-commerce & Payment Portal

July 2017 - Present

- Development of a B2B/B2C e-commerce payment portal system for Bangkok Bank Limited. The system supports multiple merchants with various online and offline payment options, developed in partnership with Thai Trade, a leading e-commerce website recognized by the Thai government.

Skills

CI/CD & Automation: Jenkins, Ansible, Continuous Integration and Continuous Deployment (CI/CD)

Build Tools: Ant, Maven

Version Control: GIT, Bitbucket

Scripting & Languages: Shell Scripting, Core Java, C

Servers & OS: Apache Tomcat, Linux

Methodologies: Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), Requirement Gathering
