Education

JNTU

Masters of Science Information Technology

June 2015 - June 2017

Hyderabad, Telangana, India

Experience

Devops Engineer

Full-time - On-Site

Nendrasys Technologies Pvt Ltd

August 2017 - October 2019

- Demonstrated detailed technical knowledge and hands-on experience on DevOps, Automation, Build Engineering, and Configuration Management.
- Created fully automated CI build and deployment infrastructure and processes for multiple projects.
- Developed scripts for build, deployment, maintenance, and related tasks using Jenkins.
- Installed, configured, and maintained Continuous Integration, Automation, and Configuration Management tools.
- Developed Ant, Maven, and Shell scripts to automatically compile, package, and deploy WAR, EAR, and JAR files of multiple applications to various platforms.
- Created repositories, branches, managed user permissions, and maintained GIT and Bitbucket.
- Deployed and maintained code and applications, configuring components to increase re-usability.
- Collaborated closely with Architecture, Development, Test, Security & IT Services teams.
- Supported Business Analysts in getting accustomed to newly created jobs and Release activities.
- Communicated daily with On-Site Team, analyzing requirements, identifying gaps, and tracking logs & issues.

Projects

Sloan Global Holdings (Sloan) (E-commerce)

Nendrasys Technologies Pvt Ltd. Designed and developed E-commerce product features for the Sloan project, a B2B platform for fixers and sinks related products.

- Focused on online sales, distribution, and marketing applications for stakeholders and the company.
- Planned and tracked activities involved in the build and deployment process.
- Resolved build issues efficiently to maintain development flow.
- Developed scripts for build, deployment, maintenance, and related tasks using Jenkins.
- Collaborated with Development, QA, and Product management teams on build plans & schedules.
- Sent daily and weekly reports to the team, ensuring transparent communication.
- Involved in creating repositories, branches, merging activities, backup, and restore activities in Subversion servers.
- Maintained Maven and Shell scripts for safe builds and deploys.

Bangkok Bank Limited (BBL) Thaitrade (Commercial, E-commerce & Payment portal)

Nendrasys Technologies Pvt Ltd. Engineered and implemented payment portal system to support multiple B2B/B2C merchants with various online and offline payment options.

- Collaborated with Thai Trade, a leading e-commerce website recognized by the Thai government, to expand user and seller base.
- Served as Devops Engineer for a team involving different development teams and multiple simultaneous software releases.
- Participated in weekly release meetings with diverse teams to identify and mitigate potential risks associated with releases.
- Responsible for creating repositories, branches, managing user permissions, and maintaining GIT.
- Created fully automated CI build and deployment infrastructure and processes for multiple projects.
- Analyzed and resolved conflicts related to merging of source code for GIT.
- Responsible for creating Ant and Maven scripts for build automation.
- Implemented Master-slave architecture setup to improve Jenkins performance.

- Handled end-to-end deployments and code propagation across different environments, from DEV to PROD.
- Managed the tasks of developing and maintaining Change Tasks.
- Worked closely with Developers, QA, Performance, UAT testers, and IT Team.
- Created and maintained documentation of build and release processes and application configuration.
- Coordinated with developers, Business Analysts, and Managers to ensure seamless code deployment in the Production environment.

Skills

Core Competencies: Ant - Maven - GIT - Bitbucket - Jenkins - Linux - Ansible - Shell Scripting - Requirement Gathering - Continuous Integration and Continuous Deployment - Software Development Life Cycle - Software Testing Life Cycle - Documentation & Reporting - Test Reports

Primary Skills: DevOps Methodologies

Programming Languages: C - Core Java

Version Controls: GIT - Bitbucket

Build Tools: ANT - Maven

CI/CD Tools: Jenkins

Configuration Management: Ansible

Scripting: Shell Script

Application Servers: Apache Tomcat Server
