Education

Savitribai Phule Pune University

Bachelor of Engineering (B.E.)

May 2016, Pune, India

Experience

DevOps Engineer

Full-time

Parkar Consulting and Labs

August 2023 - Present, Pune, India

- Actively contributed to the DevOps team, gaining hands-on experience with AWS cloud services.
- Developed and automated processes using Python scripting, enhancing operational efficiency and system management.

Projects

FPGA Implementation of AES Algorithm

May 2016

- Implemented the Advanced Encryption Standard (AES) algorithm on FPGA, focusing on secure data encryption using a secret key within a 4-person team.

Sorting Robot

2015

- Designed the mechanical system for a sorting robot that utilizes a TCS 230 sensor to sort RGB color balls by their hue, collaborated with a 3-person team.

RFID Based Student Attendance System Using GSM

2014

- Developed the interface for an RFID-based attendance system which sends automated SMS notifications via GSM upon student card scans, as part of a 4-person team.

Skills
