Education

Savitribai Phule Pune University

B.E. (Bachelor of Engineering)

May 2016, Pune, India

Maharashtra Board

S.S.C. (Secondary School Certificate)

March 2010

Experience

DevOps Engineer

Full-time

Parkar Consulting and Labs

Jan 2021 - Present, Pune, India

- Actively contribute to the DevOps team, focusing on system development and deployment processes.
- Gained hands-on experience with AWS cloud services for infrastructure management and automation.
- Developed and automated scripts using Python to streamline various operational tasks and workflows.

Projects

FPGA Implementation of AES Algorithm

- Served as Programmer for a team of 4, implementing the Advanced Encryption Standard (AES) algorithm on FPGA.
- Developed a secure data protection system utilizing a secret key for encryption.

Sorting Robot

- Acted as Mechanism Designer for a team of 3, developing a robot capable of sorting RGB colored balls.
- Utilized a TCS 230 sensor to accurately detect and sort balls based on their color.

RFID Based Student Attendance System Using GSM

- Played the role of Interface designer for a team of 4, creating an RFID-based student attendance system.
- Enabled students to mark attendance via RFID cards, with automatic SMS notifications sent to parents via GSM.

Skills

Programming Languages: C - C++ - SQL - PL/SQL - Java - JavaEE - Javascript - HTML - CSS - jQuery - MySQL - Python - Spring - Hibernate

Cloud Platforms: AWS

Software Tools: Xilinx - Modelsim - Matlab - Multisim

Operating Systems: Windows (XP, Vista, 7, 8) - Ubuntu
