

Hassan Salah

DevOps Engineer

hassan.salah@email.com | +20 101 234 5678 |  github.com/hassan-salah |  linkedin.com/in/hassan-salah | hassansalah.com

Education

Savitribai Phule Pune University

Bachelor of Engineering in Computer Engineering

May 2016

Pune, Maharashtra, India

Experience

DevOps Engineer

Parkar Consulting and Labs

Full-time

Jan 2022 - Present, Cairo, Egypt

- Working on the DevOps team, gaining hands-on experience in various DevOps methodologies and tools.
- Developed and managed infrastructure on AWS cloud platform, ensuring robust and scalable solutions.
- Utilized Python for scripting and automation tasks, enhancing operational efficiency and system reliability.

Projects

FPGA Implementation of AES Algorithm

Academic Project

Role: ~~Developer~~ **Developer** Developed the Advanced Encryption Standard (AES) algorithm for cryptographic data protection.

- Implemented the encryption process utilizing a Secret Key for secure data handling in a team of 4.

Sorting Robot

Academic Project

Role: ~~Designer~~ **Mechanical Designer** Designed the mechanical aspects of a robot capable of sorting RGB color balls.

- Integrated a TCS 230 sensor to accurately identify and sort balls according to their color in a team of 3.

RFID Based Student Attendance System Using GSM

Academic Project

Role: ~~Developer~~ **Developer** Developed an attendance system where students mark their presence using RFID cards.

- Implemented GSM functionality to automatically send attendance messages to parents in a team of 4.

Skills

Programming Languages: C - C++ - SQL - PL/SQL - Java (Core, EE, Spring, Hibernate) - JavaScript - HTML - CSS - jQuery - Python - MySQL

Tools & Platforms: AWS - Xilinx - Modelsim - Matlab - Multisim

Operating Systems: Windows (XP, Vista, 7, 8) - Ubuntu
