Education

B.E. in Technology

Mumbai University

January 2018, Mumbai, Maharashtra

Experience

Network Security Engineer

On-Site

Stormfur Technologies LLP

August 2018 - Present, Cairo, Egypt

- Troubleshoot firewall-related incidents for customers.
- Solve technical problems relating to installing security solutions.
- Analyze security requirements of network systems.
- Reviewed configuration and maintained Cisco ASA Firewalls, routers, and switches.
- Reviewed and modified Access Control Lists (ACLs) on network switching and routing equipment to maintain security standards.
- Participated in core network team to upgrade corporate network.
- Maintained network security technologies and services.
- Interacted with clients and analyzed operational requirements.
- Installed and configured IPsec and SSL VPNs.
- Reviewed and configured VLANs, Routing Protocols (RIP, OSPF, EIGRP), and NAT.
- Provided support for clients in various networking issues.

Projects

Temperature Controlled Cooling Fan

2016-2017

Academic Project: A system to sense temperature levels and activate a cooling fan when temperature exceeds a set limit.

- Aimed to prevent device damage due to overheating by automated temperature regulation.

Automatic Plant Watering System

2016-2017

Academic Project: A system to sense soil moisture levels and automatically activate a water pump when moisture drops below a set threshold.

- Ensured optimal plant hydration by providing an automated watering solution.

Certificates

Cisco Certified Network Associate (CCNA)

Cisco Certified Network Associate (CCNA-Security)

Cisco Certified Network Professional (CCNP-Routing, Switching & MPLS)

Cisco Certified Network Professional Security (ASA Module)

Skills

Networking Fundamentals: Ethernet, IPv4 (Subnetting, Supernetting), Routing, Switching, VLANs, Network Address Translation (NAT), Spanning Tree Protocol (STP), Queuing

Network Security: Access Control Lists (ACLs), Firewalls (Cisco ASA, Zone-Based, Reputation-Based), Firewall Filtering Technologies, ASA Modes of Deployment, ASA Failover, Security Context, Control Plane Security, Data Plane Security, Management Plane Security, IP source guard, DHCP Snooping, Private VLANs, VLAN Hopping, AAA, IPsec, SSL VPN

Routing Protocols: RIP, EIGRP, OSPF, BGP

VPN Technologies: IPsec, SSL VPN, DM-VPN

Network Management: Network Telemetry (NTP, NetFlow, Logging)
