Summary

Highly motivated and analytical Network Security Engineer with 24 months of experience, possessing strong communication, interpersonal, and problem-solving skills. Adept at quickly learning new technologies and thriving on challenges, with a creative and tenacious approach to complex projects. Proficient in managing network infrastructure, IT security equipment, and ensuring robust VPN connectivity and policy enforcement.

Education

Cairo University

Bachelor of Science in Information Technology

July 2012 - April 2015, Giza, Egypt

Experience

Network Security Engineer

Full-time - On-site

Egy-Tech Solutions

Jan 2022 - Dec 2023, Cairo, Egypt

- Managed the network for a major financial services client, overseeing both internal infrastructure and PAN India level operations.
- Performed installation, setup, configuration, troubleshooting, tuning, diagnostics, and maintenance of IT security-related equipment.
- Maintained all network devices including Routers, Switches, Firewalls, and Wi-Fi Devices.
- Troubleshot performance and availability issues on security devices such as firewalls, UTM, and Content Filtering solutions; handled daily calls related to network and network security.
- Managed and administered VPN connectivity with organizational clients.
- Implemented policy changes and configured URL filtering & security policies on UTM appliances.
- Monitored alerts from monitoring systems and took appropriate action based on defined processes.
- Ensured adherence to SLA's and procedures for security device management.
- Coordinated with various ISPs (e.g., TATA, Airtel, Reliance, Vodafone, Sify, Tikona & HCL Comnet) for all WAN-related issues.
- Configured and troubleshot Site-to-Site (IPSec) VPN between the Head Office and remote branches.
- Maintained a monthly inventory of all network devices.
- Resolved LAN connectivity issues, performed crimping, and rack mounting.
- Reported to the CISO of the financial client for all network-related queries and solutions.
