Education

Mumbai University

Bachelor of Engineering, Information Technology

January 2006 - January 2010, Mumbai, India

Experience

Senior Network Security Analyst

Full-time

Accenture

January 2019 - Present, Cairo, Egypt

- Installed, configured, upgraded, and troubleshot Cisco ASA firewalls (5500-X) including single and multi-context firewalls.
- Configured F5 LTM (VIP, pools), performed SSL offloading, certificate renewals, code upgrades, and troubleshot related issues.
- Managed Pulse Secure (Juniper) for remote access, including creating Roles/Realm, policies, reverse proxy, and code upgrades.
- Handled PAC file configuration and prepared design documents (HLD, LLD), IP Schema, and configurations for network devices in data center environments.
- Managed incidents, changes, and problems following ITIL processes.
- Contributed to key projects such as firewall policy lockdown and software code upgrades on firewalls and load balancers, ensuring end-to-end coordination for firewall deployment using Cisco Security Manager 4.x.

Network Security Engineer

Full-time

Zensar Technologies

January 2017 - December 2018, Cairo, Egypt

- Installed, upgraded, and deployed policies for Checkpoint firewalls GAIA R75 and R77.
- Troubleshot Checkpoint, Palo Alto, and Cisco ASA firewalls for multiple sites across US, Canada, and EMEA regions.
- Configured, upgraded, and troubleshot Cisco Routers (29xx, 28xx, 19xx), Cisco Switches (2960, 3560), and Cisco Meraki AP in Meraki Cloud.
- Configured F5 LTM and troubleshot operational issues.

Network Security Engineer

Full-time

Infosys Technologies

January 2015 - December 2016, Cairo, Egypt

- Installed, configured, upgraded, and troubleshot Checkpoint firewalls, Cisco Routers, and Switches.
- Configured, monitored, and troubleshot issues within organization LAN, WAN, and customer connectivity networks.
- Interfaced with vendors and service providers to efficiently resolve hardware or software problems with minimal downtime.

Security Analyst / SIEM Administrator

Full-time

HCL-Comnet

January 2013 - December 2014, Cairo, Egypt

- Performed event monitoring and administration of RSA Envision 4.1 SIEM.
- Researched traffic patterns to identify false-positives and/or malicious traffic within IDS, IPS, scanners (Qualys), and firewalls.
- Wrote correlation rules, parsers, and developed User Defined Signatures (UDS) for unsupported device logs.
- Analyzed a large volume of security events while maintaining high quality of analysis.
- Gained exposure to Change Configuration Management.

Network Administrator

Full-time

Wipro Technologies

January 2010 - December 2012, Cairo, Egypt

- Administered, managed, and troubleshot multi-vendor Network Infrastructure including Cisco and Juniper platforms (Cisco Router 3845, Cisco stack-wise switches 3750E/2960, Cisco 4500 chassis, Cisco 5550/20 ASA firewalls, Juniper SA 6500 SSL VPN).
- Provisioned and troubleshot access issues related to RSA and Entrust (2FA) User Accounts.
- Performed weekly and monthly configuration backups for all network and security devices.

Skills

Firewalls & Security: Cisco ASA (5500-X), Checkpoint (GAIA R75/R77, Splat), Palo Alto Firewalls, Pulse Secure (Juniper), F5 LTM, RSA Envision 4.1 (SIEM), IDS/IPS, Qualys, SSL VPN (Juniper SA 6500), 2FA (RSA, Entrust)

Networking: Cisco Routers (29xx, 28xx, 19xx, 3845), Cisco Switches (2960, 3560, 3750E, 4500), Cisco Meraki AP, LAN/WAN, Data Center Networking, IP Schema

Tools & Management: Cisco Security Manager (CSM), Checkpoint SmartCenter, Palo Alto Panorama, BMC Remedy, ServiceNow, ITIL (Incident, Change, Problem), HLD/LLD Documentation, Configuration Management

Scripting: Python, VB Scripting
