S.S.P.M.S College Higher Secondary Certificate (HSC)	Pune, India
Saints High School Secondary School Certificate (SSC)	Pune, India

Experience

PMO Analyst / Quality Auditor Capita Egypt	On-Site June 2022 – Present
- Reviewed and validated inputs from Managers regarding Dashboards and PPT's, ensuring data accuracy and consistency. - Conducted audits on work performed by onshore agents and supported previous teams in reporting activities. - Assisted reporting managers in developing business transformation leadership skills, fostering cross-organizational influence and collaboration. - Provided guidance and solutions to line managers for specific audit problems, through one-to-one and group sessions. - Prepared weekly, monthly, quarterly, and yearly MIS reports including Variance reports, Performance reports, Feedback analysis, and Task activities reports. - Published relevant business Dashboards and Projects audit reports to key stakeholders.	
Senior PMO Specialist Saviant Tech Solutions	On-Site June 2020 – May 2022
- Established a Project Management Office (PMO) from inception, providing seasoned leadership to technical operations staff for multiple projects. - Defined and implemented robust work priority management and resource management processes, optimizing project delivery. - Cultivated a supportive environment that empowered employees to innovate and deliver imaginative solutions to complex client needs. - Tracked and monitored financial performance of programs, reporting actual vs. budgeted comparisons for labor hours, operating costs, and capital costs. - Secured funding approvals for changes in project scope, ensuring financial governance and resource allocation. - Monitored program risks through ongoing identification, assessment, tracking, and execution of risk mitigation strategies. - Reviewed project documentation, captured lessons learned, and provided recommendations for future project success. - Managed risk identification, mitigation strategies, issue escalation, client communication, project timelines, and resource allocation effectively.	
Project Coordinator / PMO Support Infosys Egypt	On-Site June 2018 – May 2020

- Managed resource allocation, budgeting, and billing processes for various projects.
- Prepared and disseminated diverse reports to Delivery Managers, Project Managers, and the Quality Assurance team.
- Automated reporting processes for the entire unit, improving efficiency and accuracy.
- Interpreted data, analyzed results using statistical techniques, and provided ongoing performance reports.
- Developed case diagrams and activity diagrams for various project scenarios.
- Collated data, studied patterns, and conducted brainstorming sessions to identify outliers and anomalies.
- Reviewed and approved project documentation to ensure compliance and quality standards.
- Assisted in the identification of project risks and the setup of mitigation plans by reviewing dashboards and reports.
- Collected and analyzed customer feedback information to drive service improvements.
- Reviewed and validated inputs from Project Managers regarding Dashboards and PPT's.
- Supported Team Leads by training personnel on process and domain knowledge as part of continuous growth initiatives.
