PMO Manager / Project Lead

Saviant Technologies, Pune, India

January 2021 - June 2022

- Established a PMO from scratch, providing seasoned leadership to the technical operations staff.
- Defined and implemented work priority management and resource management processes.
- Established a supportive environment that enabled employee growth and imaginative solutions for complex client needs.
- Tracked and monitored the financial performance of programs, reporting actual vs. budgeted comparison for labor hours, operating costs, and capital costs; secured funding approvals for scope changes.
- Monitored program risks through ongoing identification, assessment, tracking, development, and execution of mitigation strategies.
- Reviewed project documentation, documented lessons learned, and provided recommendations to mitigate risks in future projects.
- Managed risk identification, mitigation strategy, issue escalation, client communication, project timeline, and resource allocation.

Project Management Officer / Senior Analyst

Infosys, Pune, India

January 2020 - December 2020

- Responsible for resource management, budgeting, and billing.
- Prepared and shared various reports with Delivery Managers, Project Managers, and the Quality team.
- Automated reports for the entire unit.
- Interpreted data, analyzed results using statistical techniques, and provided ongoing reports.
- Prepared case diagrams & activity diagrams for various scenarios.
- Collated data, studied patterns, and conducted brainstorming sessions to identify outliers.
- Reviewed and approved project documentation.
- Assisted in identifying project risks and setting up mitigation plans by reviewing dashboards and reports.
- Collected and analyzed customer feedback information.

- Reviewed and validated inputs from Project Managers regarding Dashboards and PPT's.
- Supported Team Leads by training people on process/domain as part of the growth plan and ensured SLA compliance.

Quality Analyst / Reporting Specialist

Capita India Pvt Ltd, Pune, India

June 2018 - December 2019

- **Audits:**
- Reviewed and validated inputs from Managers regarding Dashboards and PPT's.
- Audited work done by onshore agents and simultaneously audited work for previous teams and their reporting.
- Assisted reporting managers in developing business transformation leadership skills, demonstrating proven ability to influence & collaborate across all organizational levels.
- Helped line managers solve specific audit problems, both one-on-one and in groups.
- **Reporting:**
- Prepared weekly, monthly, quarterly, and yearly MIS reports including Variance report, Performance report, Feedback analysis, Task activities report, published relevant business Dashboards, and Projects audit report.
