Summary

A dedicated MySQL Database Administrator with over 2 years of experience in large-scale database management, optimization, and 24/7 production support. Proficient in database installation, maintenance, upgrades, replication, and performance tuning across Linux and Windows environments.

Education

Mumbai University

Bachelor of Science (BSc.)

January 2016, Mumbai, India

Maharashtra Board

Higher Secondary Certificate (H.S.C.)

January 2013, Maharashtra, India

Maharashtra Board

Secondary School Certificate (S.S.C.)

January 2011, Maharashtra, India

Experience

MySQL Database Administrator

Full-time - On-site

Trimax IT Infrastructure & Services Ltd

January 2022 - January 2024, Cairo, Egypt

- Managed MySQL installations, maintenance, and upgrades (versions 5.5, 5.6).
- Administered large-scale MySQL databases on both Linux and Windows environments.
- Optimized MySQL processes, security management, and complex queries.
- Analyzed and resolved slow and problematic queries to enhance performance.
- Implemented structural database changes (table creation, column additions) based on business requirements.
- Developed and maintained database maintenance plans and backup/restore scripts.
- Migrated database engines from MYISAM to INNODB.
- Performed server shifting, parameter tuning, and database purging.
- Configured and managed MySQL Master-Slave Replication.
- Handled release management and user acceptance testing for database changes.
- Executed database restores using xtrabackup.
- Monitored daily, weekly, and monthly system maintenance tasks: backups, replication verification, integrity checks, and indexing updates.
- Provided 24/7 production database support, ensuring high availability and performance.

Skills

Database Administration: MySQL DBA, Backup, Restore, Replication, Query Optimization, Database Maintenance Plans, Xtrabackup

Operating Systems: CentOS, Linux, Windows

Concepts & Tools: Server Tuning, Database Purging, MYISAM, INNODB, Scripting
