Summary

Oracle Database Administrator with 4 years of experience in Linux/Microsoft environments. Proficient in Oracle 10g, 11g, 12c, and 18c database administration, including backup, recovery, performance tuning, and cloud integration.

Education

Amravati University

M.B.A.

CGPA: N/A

January 2011, Amravati, Maharashtra, India

Nagpur University

B.C.A.

CGPA: N/A

January 2007, Nagpur, Maharashtra, India

Experience

Oracle Database Administrator

Full-time

TIETO INDIA PVT. LTD

February 2015 - Present, Pune, India

- Managed Oracle Database Administration for 11g R2, 12c, and 18c versions.
- Provided 24/7 database support, coordinating with Application, OS, Storage, and Development Teams for Test and Production environments.
- Regularly monitored trace files and Alert log files for database-related issues.
- Monitored CPU usage, IO, and memory utilization at the OS level.
- Analyzed Alert log files for ORA errors and raised Service Requests (SR) with Oracle when necessary.
- Monitored log files, backups, database space usage, and system resource utilization.
- Configured Recovery Manager (RMAN) for database backups and performed database restores.
- Installed, configured, and updated Oracle server software and related Oracle products (11g and 12c).
- Performed Oracle Server installation, client installation, and PL/SQL Developer installation.
- Created databases using DBCA and manual methods.
- Created Oracle users and granted appropriate privileges as per requests.
- Generated AWR, ASH, and ADDM reports for comprehensive database performance analysis.
- Handled space management and performance issues in Oracle databases.
- Created remote database links.
- Renamed and resized data files in Oracle databases as required.
- Performed tablespace shrinking at regular intervals to reclaim server space.
- Expertise in Export and Import operations using Data Pump in Oracle database.
- Configured Listener and TNSNAMES through NETMGR, NETCA, and statically.
- Managed Oracle Listener and Oracle Network Files.
- Created user profiles and granted specific privileges and roles to users in Oracle database.
- Maintained tablespaces & data files, Control files, and Online Redo log files in Oracle database.
- Worked with AWS cloud services including EC2, S3, RDS, ELB, EBS, VPC, Route53, Auto Scaling, CloudWatch, CloudFront, and IAM for installing, configuring, and troubleshooting server migrations from physical to cloud.

Projects

Environmental Components (EC) Application Support

February 2015 - Present

TIETO INDIA PVT. LTD, Pune, India

- Supported the Oil and Gas unit's Environmental Components (EC) application as an authorized service provider for Tieto.
- Managed a complete end-to-end hydrocarbon accounting solution, covering production to transport, sales, and revenue recognition.
- Ensured the application's functionality for globally market-leading hydrocarbon accounting, exceeding other available solutions.
- Maintained a modern, flexible, and scalable technology platform, adopted as a global standard by oil & gas super majors.

Skills

Operating Systems: LINUX, Windows Server 2012 R2, Windows 98, Windows 2000/XP

Databases: Oracle 10g, Oracle 11g, Oracle 12c, Oracle 18c

Tools & Utilities: SQL Loader, SQLPLUS, OEM, Datapump (expdp/impdp), PL/SQL Developer, Jenkins, NETMGR, NETCA, RMAN, DBCA

Scripting/Languages: UNIX Shell Scripting, SQL, PL/SQL

Cloud Technologies: AWS (EC2, S3, RDS, ELB, EBS, VPC, Route53, Auto Scaling, CloudWatch, CloudFront, IAM)

Database Technologies: Oracle DBA, RAC, Golden Gate, ASM, Data Guard
