Education

Mumbai University

BSc. January 2016, Mumbai, Maharashtra

Maharashtra Board

H.S.C. January 2013

Maharashtra Board

S.S.C. January 2011

Experience

MySQL Database Administrator

Full-time - On-site

Trimax IT Infrastructure & Services Ltd

February 2016 - January 2018

- Performed MYSQL Installation, maintenance, and Upgrades (Version 5.5, 5.6)
- Administered MySQL databases on a large-scale MySQL installation
- Gained experience with MySQL on both Linux and Windows environments
- Managed MySQL processes, security, and query optimization
- Conducted query analysis for slow and problematic queries
- Implemented structural changes to databases, including creating tables and adding columns as per business requirements
- Developed and maintained Database Maintenance Plans
- Wrote scripts to create jobs for Backup & Restore Plans
- Migrated database engines from MYISAM to INNODB
- Executed server shifting, tuning parameters, and database purging operations
- Managed MySQL master-slave Replication setups
- Handled Release management and user acceptance processes
- Performed database restores using xtrabackup
- Monitored daily, weekly, and monthly system maintenance tasks such as database backup, replication verification, database integrity verification, and indexing updates
- Provided 24/7 production database support

Skills

Database Administration: MySQL (5.5, 5.6), Backup, Restore, Replication (Master-Slave), Query Optimization, Database Maintenance Plans, Database Purging, Xtrabackup, MYISAM, INNODB

Operating Systems: Centos, Linux, Windows

Concepts & Practices: Server Tuning, Release Management, User Acceptance Testing, 24/7 Production Support, System Monitoring

Scripting: Shell Scripting
