Summary

Experienced Oracle Database Administrator on Linux/Microsoft platforms with 4 years of expertise in managing and optimizing complex database environments, ensuring high availability and performance for critical applications.

Education

Amravati University

M.B.A.

January 2011, Amravati, Maharashtra

Nagpur University

B.C.A.

January 2007, Nagpur, Maharashtra

Experience

Oracle Database Administrator

Full-time

TIETO INDIA PVT. LTD

February 2015 – Present, Pune, India

- Administered Oracle Database 11g R2, 12c, and 18c, ensuring 24x7 availability and performance in production and test environments.
- Coordinated effectively with Application, OS, Storage, and Development Teams to resolve database-related issues promptly.
- Monitored database health by regularly checking trace files, Alert log files, CPU usage, I/O, and memory utilization at the OS level.
- Diagnosed ORA errors from Alert log files and raised Service Requests (SRs) with Oracle for advanced troubleshooting.
- Implemented and maintained RMAN backups, ensuring data integrity and enabling efficient database restoration.
- Performed installation, configuration, and updates of Oracle server software (11g, 12c), client installations, and PL/SQL Developer setups.
- Executed database creation using DBCA and manual methods, along with user creation, privilege granting, and role management.
- Generated AWR, ASH, and ADDM reports to perform in-depth database performance analysis and address performance bottlenecks.
- Managed database space efficiently, including tablespace shrinking, data file renaming and resizing to optimize server resources.
- Utilized Data Pump for expert-level export and import operations in Oracle databases.
- Configured and managed Oracle Listener and Oracle Network Files (tnsnames.ora) using NETMGR, NETCA, and static configurations.
- Gained experience with AWS cloud services (EC2, S3, RDS, ELB, EBS, VPC, Route53, Auto Scaling, CloudWatch, CloudFront, IAM) for server migration and cloud infrastructure management.

Skills

Operating Systems: LINUX - Windows Server 2012 R2 - Windows 98 - Windows 2000/XP

Databases: Oracle 10g - Oracle 11g - Oracle 12c - Oracle 18c

Oracle Ecosystem: RAC - Golden Gate - ASM - DataGuard - OEM - RMAN - Data Pump

Tools & Utilities: SQL*Loader - SQL*PLUS - PL/SQL Developer - Jenkins - DBCA - NETMGR - NETCA

Scripting & Languages: UNIX Shell Scripting - SQL

Cloud Platforms: AWS (EC2, S3, RDS, ELB, EBS, VPC, Route53, Auto Scaling, CloudWatch, CloudFront, IAM)
