Education

Kakatiya University

B.Sc. Maths

2005 - 2008, Warangal, India

Experience

Database Administrator Support

Barclays Technology Centre India

March 2013 - Present

- Attended various calls from all over the world on diverse database issues.
- Worked on Web GUI alerts and resolved incident tickets within established timelines.
- Troubleshooted log shipping issues and fixed related alerts efficiently.
- Identified and resolved blocking and locking related issues to ensure database performance.
- Configured and monitored Replication, Log Shipping, and Mirroring setups.
- Addressed and resolved replication and Always On issues.
- Granted and revoked permissions for various account provisioning tasks, adhering to security protocols.
- Provided call support during weekends and performed Disaster Recovery (DR) tests.
- Managed weekly maintenance jobs and executed weekend change requests.
- Contributed to SQL server database implementation and ongoing maintenance.

Database Support

Accord Fintech (for CITI Bank)

Sep 2008 - Feb 2013

- Possessed sound knowledge in Database Backup, Restore, Attach, Detach, and Disaster Recovery procedures.
- Developed robust backup and recovery strategies for production environments.
- Ensured data consistency in the database through DBCC and DMV commands.
- Experienced in query tuning, optimizing stored procedures, and troubleshooting performance issues.
- Had hands-on experience in DR processes including log shipping and database mirroring.
- Configured, scheduled, and monitored database jobs effectively.
- Experienced in configuring and troubleshooting Always On availability groups.
- Created and maintained comprehensive Maintenance Plans for database health.
- Demonstrated expertise in planning and implementing MS SQL Server Security and Database permissions.
- Possessed clear understanding of implementing Log Shipping, Replication, and mirroring of databases between servers.
- Performed performance tuning using tools like Performance Monitor, SQL Profiler, and Query Analyzer.
- Implemented server & database security by creating roles/users, adding users to roles, and assigning appropriate rights.
- Created and maintained linked servers between SQL instances.
- Configured and maintained Database Mail for automated notifications.
- Monitored and troubleshooted various database issues proactively.
- Created DTS packages for executing required data transformation tasks.
- Expert in creating, maintaining, rebuilding, and reorganizing indexes for optimal performance.
- Performed daily maintenance of SQL Servers, including reviewing SQL error logs and Event Viewer.

Skills

Databases & Technologies: MS SQL SERVER (2000/2005/2008/& 2012, 2014) - RDBMS - Database Administration - Replication - Log Shipping - Database Mirroring - High Availability - Clustering - Always On - Performance Tuning - Backup & Recovery - Query Optimization - Stored Procedures - DTS Packages - Index Management

Operating Systems: WINDOWS XP - WINDOWS 7 - WINDOWS SERVER (2008, 2012)

Tools: SSMS - Performance Monitor - SQL Profiler - SQL Lite Speed - Query Analyzer - DBCC - DMV

Office Productivity: MS Office (2003, 2007)
