Education

SRM University

M.Tech (IT-DBS)

CGPA: 3.86

2013 – 2015, Chennai, India

SRM University

B.Tech (CSE)

2009 – 2013, Chennai, India

Experience

Software Engineer

Full-time

Citi (Anti-Money Laundering Program)

September 2016 – Present, Cairo, Egypt

- Built and provided domain knowledge for Anti-Money Laundering among team members.
- Involved in designing a star-schema model involving various Dimensions and Fact tables.
- Designed SCD2 for maintaining history of the DIM data.
- Developed Hive Queries for mapping data between different layers of architecture, and leveraged them in Oozie Workflows.
- Integrated with Data Quality and Reconciliation Module.
- Performed regression and integration testing to identify and resolve issues in module integration and data flow across layers.
- Developed a transaction monitoring system to generate alerts for suspicious and fraudulent transactions based on business requirements.
- Developed Spark Jobs for various business rules.
- Actively learning Machine Learning to develop an effective model for fraud detection in Anti-Money Laundering systems.
- Scheduled jobs using Autosys tool.
- Managed deployment and code using RTC and RLM (Release Lifecycle Management).

Software Engineer

Full-time

Technosoft Corporation

August 2015 – September 2016, Chennai, India

- Worked as a Software Engineer on various projects.

Hadoop Developer

Full-time

Alcatel-Lucent

February 2014 – July 2015, Giza, Egypt

- Worked on the PRTS - RAN project, focusing on maintaining and storing operational and parameters data from multiple vendor networks.
- Utilized Hadoop Distributed File System for data storage and management.
- Imported data from MySQL to HDFS using SQOOP.
- Created Hive tables, loaded data, and developed Hive queries optimized for the Tez execution engine.
- Prepared comprehensive Test Cases Documents.
- Integrated Hive and HBase for efficient storage of operational data.
- Monitored job execution and workflows using Oozie.

Skills

Big Data Ecosystems: Hadoop-HDFS, MapReduce, Hive, Pig, Sqoop, HBase, Oozie, Spark, Pyspark, HUE, Cassandra

Programming Languages: Python, Core Java, Scala

Databases: Oracle 10g, MySQL, Sqlserver, NoSQL (HBase, Cassandra)

Tools: Eclipse, Toad, FTP, Tectia, Putty, Autosys, Anaconda, Jupyter Notebook, DevOps (RTC, RLM)

Scripting Languages: JSP

Platforms: Windows, Unix
